## YOUNG CONS SNATCH VISITORS

### Demos Score Butler

TV Remarks Stir Furor In Congress

Washington (P) — A demand for Paul Butler's resignation as Democratic national chairman sounded Monday as Senate and House Democrats furiously replied to Butler's criticism of the Democratic leadership in Congress.

While Republicans listened with unceasing glee, various Democrats denounced Butler as a party wrecker and heaped praise on Senate Democratic leader Lyndon B. Johnson, House Speaker Sam Rayburn and other Democratic legislative leaders.

Republicans kept quiet. Their Senate leader, Sen. Everett M. Dirksen of Illinois, looking not a bit grieved, remarked that it is "the better part of wisdom" not to get mixed up in other people's family brawls.

Tough Sledding  
Butler started the fraternal fracas. He said in a televised interview Sunday quite a few Democrats were unhappy about the performance of the Democratic-controlled Congress and the party will be "in a tough situation" for the 1960 presidential election unless the leadership comes up with what he regards as a better record.

But Rep. William Jennings Bryan Dorn (D-SC) told the House he had reliable information Butler had sometimes supported Republican candidates, and now, he said, the chairman was falling for a Republican trick to divide the Democrats and win the 1960 election. He said Butler should resign and be replaced by someone "Democrat party-born and party-bred."

Utter Motives  
Butler's blast, Dorn said, "lends some truth to recent reports that Mr. Butler is masterminding a plan to oust Mr. Rayburn as permanent chairman of the (1960 presidential) convention, to unseat Mr. McCormack (House Democratic leader John W. McCormack of Massachusetts) as chairman of the convention platform committee and to appoint a convention credentials committee which would deny seating to several delegates from Southern states."

### Passenger Killed When Truck Rolls

North Platte, Neb. (P) — One man was killed and another injured Monday when the tie rod broke on a pick-up truck sending the vehicle out of control on U.S. 30 one mile east of Hershey, according to the State Safety Patrol.

The truck crossed a ditch and overturned in a cornfield. Killed was George Downing, about 69, of North Platte. He was a passenger in the truck driven by Walter Anthony, also of North Platte.

Anthony was hospitalized in North Platte with a broken shoulder and other minor injuries.

The death raises the year's traffic death toll to 148 as compared with 150 on this date last year.

### Escapee Sought In Seward Area

Lincoln Star Special  
Seward, Neb. — A prisoner being returned from Missouri to face charges in Butler County escaped from Sheriff Joe Meyerscamp near Seward Monday.

The man was last seen along the banks of the Big Blue River. Sheriff's deputies from Seward and Nebraska Safety Patrolmen searched the river until it became too dark to see.

WIREPHOTO

### Charged In Slaying

Mrs. Sadie Dickerson, 59, of near Naper, Neb., was bound over to District Court Monday on a charge of first degree murder in the slaying of her son, Frank Vanderlinde, 21. Also charged with murder is another son, Nyal Franch, 18. Franch and the dead youth are half-brothers. Story on page 6.

### Party Of 16 In Rapids Found Safe

Green River, Utah (P) — Sixteen men, women and children reported missing in the turbulent Colorado River were reported safe late Monday in a sketchy radio message received by the Federal Aeronautics Agency.

Archie Swenson, Civil Air Patrol commander in Moab, said he had the radio report from the FAA. Swenson said he listened in as pilot James Hurst told the FAA station at Hanksville, Utah, he had picked up two persons from the river bank aboard his plane and that the other 14 were all right.

There were no further details available.

### Treacherous Waters

The party of 16 had challenged the Colorado's deadliest rapids in 3 rubber rafts. Hurst started searching when they didn't come out on schedule. He spotted the stranded party by the river bank in Cataract Canyon and sent a helicopter in to get them. Hurst said then he thought both were men but he couldn't be sure.

The 16 persons had set out June 28 in their rafts to bob down the Green and Colorado Rivers from here to Hite, 80 miles in a straight line but much farther along the rivers, corkscrew course.

The Colorado foams through the 28-mile canyon bounding over boulders and spinning in whirlpools big enough to hold a capsized boat in their power for days.

### STORMS MAY PLAGUE WHEAT HARVEST TODAY

Scattered showers and thunderstorms threaten to interfere with Nebraska's wheat harvest Tuesday.

Showers are scheduled to hit the west and north during the day, then move into the extreme east Tuesday night. Imperial reported the state high Monday of 98, with a low of 53 reported at Norfolk.

Run-off from recent rains is causing rises on the Little Blue River and the upper branches of the Big Blue. The Little Blue crested 3 feet over flood stage at Fairbury Monday; however, no actual flooding was reported.

A two-foot overflow at Crete is predicted Wednesday.

### 2 Dogs, Rabbit Lofted

... By Soviets

Moscow (P) — The Russians announced Monday night they have shot two dogs, a rabbit and recording instruments into space in a single rocket and brought them back intact. The animals and instruments weighed more than two tons.

The Soviets did not say how high or how far the rocket traveled. They gave no size or weight of the propelling rocket other than to say it was an intermediate range missile.

But they declared much valuable data was collected on conditions in space.

For one of the dogs, Otavzhnaya (Daring), it was the third trip into space, the official Tass agency reported. The name of the other dog is Snezhinka (Snowflake). The rabbit is nameless.

The animals are quite well after their trip, Tass said.

### One-Stage Operation

The Soviets described the rocket as a "single stage geophysical ballistic intermediate range rocket."

An announcement said: "repeated ascents made by the same animals have made it possible to obtain data about the adaptability of animals to flights in rockets. New data on the behavior of animals under conditions of weightlessness have been obtained."

The only information the Russians gave on the height or distance of the flight was that it went to "great altitude." The launching site was not disclosed.

Monday night's announcement was in a special broadcast which was repeated over Moscow television. No pictures of the launching were shown.

The announcement said the animals were "quite well" following their experience.

### Daughters Of Nebraskan:

### Woman Rallies; Shot Self After Twin Wed Fiance

Charleston, S.C. (P) — Marrying her twin sister's fiance announced was no lark, a pretty Women's Air Force lieutenant said Monday.

"We love each other," Lt. Sheila Marsh Housand, 22, said at Roper Hospital where her sister, Lt. Sandra Marsh, was being treated for a self-inflicted pistol wound.

John Housand, 24, had been engaged to Sandra. He and Sheila said they applied for a marriage license Thursday and were married Friday. Sunday, police said Sandra fired a .32 caliber pistol bullet into her abdomen. She was reported in satisfactory condition.

The shooting occurred in the twins' off-base house. Sandra and her new husband were in the house and the 3 planned to go out that night.

### 'Never Been Out'

Asked why they surprised Sandra with their marriage Friday, John and Sheila replied: "We decided we loved each other although we had never been out together."

After their marriage in nearby Moncks Corner, they returned to the home shared by the identical twins in North Charleston.

Sandra became a "little hysterical" but later calmed down after she reconciled herself to the surprise marriage, said Sheila.

The 3 spent the weekend together and were planning to go out Sunday night. They said Sandra earlier had taken a few sleeping pills to rest.

### Farewell Note

The Housands said they heard a noise in Sandra's bed-

### 2 Dogs, Rabbit Lofted

By Bill Anderson  
When the bird population began to climb at the John B. Priest home at 2355 So. 38th this summer, John and his 12-year-old son, Jim, decided they'd better build a birdhouse.

But they knew a pint-sized, clothesline-pole type structure wouldn't fill the bill. So they planned on a large scale.

Priest made a trip to City Hall two weeks ago and obtained a building permit, specifying that the structure to be built would be a birdhouse. The clerk's eyes widened. A permit for a birdhouse?

200 Square Feet  
But Priest got his permit and began to build a birdhouse that will have more than 200 sq. ft. of floor space. The 12x20 ft., one-room building will house some 150 parakeets, lovebirds and finches now living in Priest's basement.

The Priests started bird-raising as a hobby 3 years ago and the hobby just grew and grew. While Priest, a traveling school textbook salesman, is on the road Jimmy cares for the birds. It keeps him busy 45 minutes a day.

"There's one thing about birds," Priest jokes. "You

### Daytime Burglary Nets \$4,000 Loot

... Guns, Coins, Rings, Watches

By Sam Hall

A daring daytime burglary Monday at the home of a Lincoln gun and coin collector netted thieves a carload of items valued at an estimated \$4,000.

The burglary occurred sometime between the hours of 6:45 a.m. and 3:30 p.m. at the home of Mr. and Mrs. Curtis L. Murphy of 332 So. 27th, police said.

Taken were 12 guns, a number of valuable coin collections, 5 diamond rings, 3 watches and a set of women's luggage. Mrs. Murphy said.

Mrs. Murphy said that she returned home from work at 3:30 p.m. to find the house completely ransacked.

Police said that the burglars gained entry by kicking

in a locked basement door on the east side of the house. Using a steel hammer, crowbar and other tools, intruders knocked open a basement safe which contained a number of the coins.

Mrs. Murphy said the locked doors of the gun room and the coin room located on the first floor were forced open. The jewelry was taken from an upstairs bedroom, she said. The luggage was stored in the attic.

Det. Lt. Robert Butcher said police apparently have no positive leads to work on. Dets. Al Delaney and Louis Greiner interviewed persons in the neighborhood, but all said they "saw nothing."

Lt. Butcher said, however, that one possible lead was being followed.

Lt. Butcher said that he had notified the State Safety Patrol and the Omaha and Beatrice police departments.

"One of the rings, a man's diamond ring," Mrs. Murphy said, "was insured for \$500." The other rings, all women's diamond rings, were of undetermined value, she said.

The guns constituted the greater value of the loot. All the coins, she said, are spendable.

Nebraskans  
The twin second lieutenants are daughters of Mrs. Charles L. Marsh and the late Dr. Marsh of Valley, Neb.

Both were graduated from Colorado Women's College at Denver and the University of Iowa. They took degrees in botany.

The mother said the girls had been inseparable most of their lives.

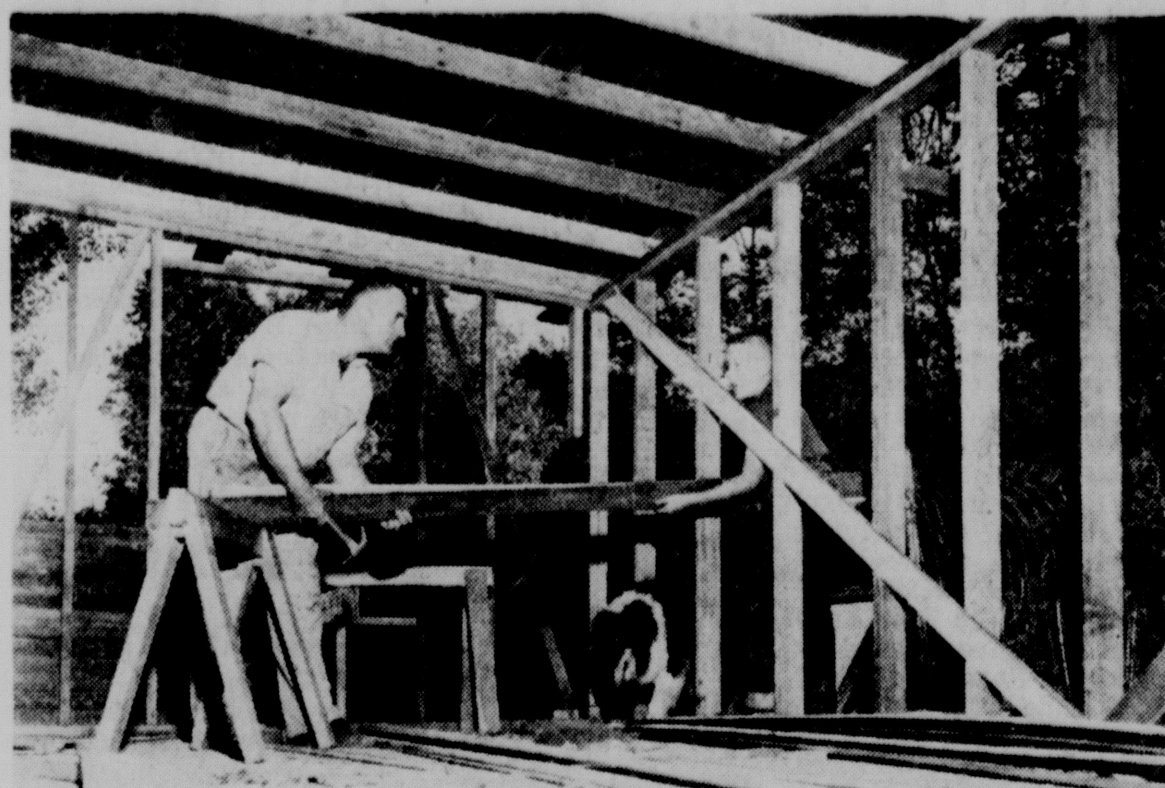

### The Weather

NEBRASKA: Clear to partly cloudy through Tuesday night; scattered showers, thunderstorms west, north Tuesday; scattered thunderstorms west, scattered storms extreme east Tuesday night; warmer extreme east; highs upper 80s to 95.

### Building A King-Size Aviary

John B. Priest and his 12-year-old son, Jim, got out the hammer, nails and rolled up their sleeves. They're working on a birdhouse that's going to be big enough to house a nest of prehistoric pterodactyls. (Star Photo)

ing for the birds, John says. "She gives us moral support," he confides.

The building of the huge birdhouse has become almost a neighborhood project. Priest's next-door neighbors frequently wander over to wield a hammer or saw.

When the aviary is finished, it will be equipped with cages, lights and an electric heater. The finished product will cost over \$200, but the Priests think it's well worth the money.

Mrs. Priest takes a less active part in the actual car-

can go down to the basement and talk to them and they won't talk back."

Although parakeets can be trained to talk, John and Jim keep the birds only until they are old enough to sell.

Profitable  
"It's an inexpensive and profitable hobby," Priest says. The birds eat a total of 100 pounds of bird seed a month, costing about 10 cents a pound.

Mrs. Priest takes a less active part in the actual car-

### Tax Explanations May Be Asked

... Decision Delayed On 3 Counties

By Betty Person

Garfield, Hamilton and McPherson counties may be called before the State Board of Equalization to explain reductions they have made on the valuation of some property in their counties.

State Tax Commissioner Fred Herrington suggested that the 3 counties might be called, but the Board delayed a decision on the matter until its next meeting July 13. Members of the State Board of Equalization are Gov. Ralph Brooks, State Treasurer Richard Larsen, State Auditor Ray Johnson, Secretary of State Frank Marshall and Herrington.

The state's tax chief told the Board that abstracts received from the first 39 counties show that Madison, Garfield, Garden and Dixon counties have reductions in the tangible property business schedules this year.

### Real Estate Down

Urban real estate valuations are down in Garfield, Hamilton, McPherson, Nuckolls, Pawnee and Sherman counties, and rural real estate valuations are down in

Boyd, Garfield, Greeley, Johnson, Kimball and Pawnee counties.

McPherson and Perkins counties reported reductions in the Class A intangibles (cash, book accounts, etc.), and Garfield and McPherson counties showed reductions in Class B intangible property (stocks and bonds).

Brooks queried Herrington about the general valuation picture and the tax commissioner replied that all classes of valuation were above last year.

### 'Triumvirate'

The governor said this was due to the "triumvirate of Carpenter, Herrington and Brooks."

Herrington then jokingly asked, "Is that triumvirate listed in the order of appearance?" to which Brooks replied, "I don't care who gets the credit as long as we get the money."

Sen. Terry Carpenter of Scottsbluff conducted a 15-month Legislative Council investigation of tax law violations which resulted in stiffer tax enforcement laws passed by the 1959 Legislature and supported by Brooks.

Herrington has conducted investigations of several individuals who apparently did not report all of their intangible property.

### Blaze Sweeps Store, Market At North Platte

North Platte, Neb. (P) — Bill's Liquor Store and the north half of the Whitehouse Food Market were destroyed by a fast spreading fire driven by a strong wind Monday.

The fire started in a trash can between the two stores. An adjoining house also was damaged. There was no estimate of loss.

All North Platte fire equipment was called to fight the blaze which was brought under control in about 40 minutes.

### BOLD BREAK TRIED

Coast Rebels Hold Women, Children

Monroe, Wash. (P) — Four desperate convicts held 40 men, women and children hostage in the State Reformatory Monday night and threatened "we know where to stick the knife" unless permitted to escape. One woman was released unharmed.

But two deadlines passed without the rebels making a move. Seven hours after the 4 seized an estimated 26 visitors, 11 other prisoners and 3 guards a tense stalemate developed.

"It's a waiting game," said Reformatory Supt. Ernest Timpani, "and time is on our side."

Sheriff Bob Twitchell of Snohomish County, site of the reformatory, reported the "knife" threat by the convicts. He also said they threatened to commit suicide after harming the hostages unless they were allowed to escape.

### Deadlines Pass

The convicts made two demands for an escape car—first setting a deadline of 20 minutes; then saying they wanted it "by dark." Both deadlines passed quietly.

Scores of heavily armed officers stood ready to rush in at the first sign of violence to the hostages.

The one released was Mrs. Marlene Oxford of Kelso, Wash., who had been visiting her husband, Bruce, a prisoner. Mrs. Oxford, released after she became ill, was rushed to a house on the reformatory grounds. Officers quoted her as saying the hostages were being well treated.

Mrs. Oxford's 4-year-old son, her sister and her brother-in-law remained among the hostages.

Twitchell reported the threats of suicide and harm to the hostages from the 4 young prisoners who seized the group in a bold raid on the visiting room.

"The time is about up," Twitchell quoted Robert E. Jamin, one of the convicts, as telling authorities. "We want an escape car and 4 hostages for a getaway. We want it by dark."

### Not A Chance

Twitchell said he told the convicts: "You don't have a chance. Every cop in the country will be on your trail if you get out."

At the time the threat was reported it was less than an hour before darkness.

Authorities said they were working on 3 or 4 emergency plans. They declined to discuss any of them.

More than 200 off-duty guards, state patrolmen, sheriff's deputies, police from several nearby cities and members of the sheriff's reserve ringed the building.

Three of the rebels had escaped and been recaptured earlier this year. The 4th was described as a hardened criminal.

Timpani went on the reformatory public address system to explain the situation to the 850 other prisoners and ask their co-operation. They applauded and cheered when the superintendent finished.

Timpani later told reporters: "I have a squad of men within 3 feet of the door. If anything happens we would be there in a matter of seconds."

"Not one of the hostages has been harmed, and it's a matter of waiting them out."

### Today's Chuckle

Wife to sick husband: "What do you mean you have nothing to live for? The car isn't paid for, the washing machine isn't paid for, the house isn't paid for, the TV isn't paid for..."

# \$20,000 In City Funds Appropriated For Anticipated Auditorium Deficit

By Virgil Falloon  
The City Council Monday appropriated \$20,000 from the city's contingency fund for operation of Pershing Municipal Auditorium through Aug. 31.  
The Council budgeted this money last fall should the Auditorium show an operational deficiency during the 1958-59 fiscal year.  
Finance Director James Mallon reported that as of June 1, the Auditorium had spent \$112,632 as against revenue of \$98,762 for a current deficit of \$13,869.  
Deficit Off-Set  
Part of the deficit can be off-set against receivables and a small balance from \$50,000 granted in 1956 from the building fund surplus for a "near break-even" statement at the moment Mallon said.

But, he noted that a deficit of about \$20,000 is anticipated during 3 summer months of this fiscal year.  
The Auditorium Advisory Committee has indicated that the 1959-60 Auditorium budget of \$143,433 will include a request for tax funds.  
In other action, the Council approved 6 curb cuts for the proposed Hinky Dinky shopping center between 59th and 60th, Adams to Cleveland.

Next Year  
Atty. Lloyd Marti, representing American Community Stores, told the Council that construction of the \$500,000 super market and shopping center will begin this year.  
Curb cuts for entrances and exits were approved on 59th, Adams and 60th. A request for curb setbacks was withdrawn.

Referred to the building inspector's office for a report was the Continental National Bank's request for a permit to install a large time and temperature sign on the northwest corner of its building at 12th and N.  
Council action on ordinances:

Introduced, 1st Reading  
—An ordinance creating standards for warm air heating installations, the licensing of contractors, and establishing a board of examiners.  
—Paving district for Benton from Touzalin to 61st.  
Passed, 3rd Reading  
—Water District 322 being Pioneer Blvd. from 46th to 48th.  
—Sewer District 670 being Fairfax from 63rd to 64th.  
—Sewer District 671 being Holdrege from 63rd to 64th.  
All Council members were present except C.W.D. Kinsey.

## O Traffic Study Slated, 27th To 63rd

The City Council Monday authorized an extensive traffic survey of O from 27th to 63rd in connection with its proposed future improvement as a federal aid project.  
Public Works Director D. L. Erickson said state and federal engineers are requiring the study before design requirements, projected to 1960, are determined for the city's major arterial.  
Cost of the survey, to be made by city engineering, planning and traffic personnel, is estimated up to \$1,500.

## New Community Chest Program Will Inform Businessmen Of Campaign

The Lincoln Community Chest has inaugurated a new program which will give Lincoln business firms an opportunity to indicate their support of the United Community Chest and Red Cross campaign, and to more fully understand the campaign.  
The new program, called the Business Sponsor Program, was launched Monday afternoon at a meeting of Chest agency executives and presidents who will carry out the plan.  
Co-chairman of the project will be John Johnson, general secretary of the YMCA, and Robert Magee, YMCA president. Assistants will be John Gedwillo, director of Goodwill Industries, and Mrs. Dorothy Bredemeyer, Camp Fire Girls executive secretary.  
Gene Eaton, general campaign chairman, emphasized that the Business Sponsor Program will not concern it-

and requiring 2 or 3 months to complete.  
Vine-Randolph  
Federal engineers have indicated parallel development of Vine and Randolph may be needed because of the probable 66-foot wide right-of-way limitation on O east of 27th.  
The city's right-of-way west of 27th is 100 feet with a 70-foot street.  
Only a 52-foot wide street east of 27th is probably possible, city officials have said. Present width varies from 30 to 40 feet from 27th to 63rd.  
Business development, turning movements at intersections, and other data are to be evaluated in the traffic study, Erickson said.

## Health Dept. Budget Hike About \$4,000

The City-County Health Department requested Monday a 1959-60 budget of \$181,107 as compared with last year's budget of \$176,900.  
The proposed budget includes an estimated \$10,000 balance from the previous budget.  
Estimated city costs would be \$58,210 with an equal amount being contributed by the county. Remaining money would come from fees, \$33,705, and state aid, \$21,000.  
The City Council, which heard the budget report from Finance Director James Mallon, will discuss the proposal during hearings in July.  
The county commissioners meeting jointly with the Council expressed a willingness to go along on the proposed figure.

## City-County Planning Unit Asks \$47,248

The City-County Planning Commission's proposed budget of \$47,248 for 1959-60 was presented Monday to the City Council and County Board in a joint meeting.  
Planning Director Douglas Brogden said the operational budget of \$29,248 represents an increase of \$570 over the previous year's \$28,681.  
Of this proposed expense, the city's share would be \$23,298 and the county's \$5,849 on the basis of an approved 80-20 split.  
Development Plan  
In addition to the operational budget, the Commission has proposed an \$10,000 appropriation for the development of the regional city-county comprehensive plan. Of this amount, the city would pay \$6,000; the county, \$3,000, and the federal government, \$9,000. Federal approval has been received.  
The new budget proposes that the assistant planning director's salary of \$5,179 be increased by \$480 and the draftman's salary of \$3,810 by \$240.  
Brogden said the increases are needed to retain present personnel and bring these salaries in line with private

enterprise and comparable governmental agencies.  
Both the city and county are expected to take action on the proposed budget during their budget sessions beginning next week.

## Council Reduces Valuations Of Two At Hearing

The City Council as a board of equalization reduced only two 1959 assessed valuations in connection with 9 com-

plaints considered Monday.  
No change was made in 6 others and action on one was deferred until Tuesday, when the remaining 9 complaints will be heard.  
Board action taken:  
L. J. Dreamer, 1540 Lake, \$4,000 assessed valuation; no change.  
Ralph E. McKinney, 2105 No. 63rd, \$1,250; no change.  
Mrs. Gerald McCord, 2140 No. 63rd, \$1,150; reduced \$150.  
C. C. Campbell, 3600 J, \$5,800; reduced \$1,000.  
E. P. Tinker, 1928 A, \$3,700; no change.  
Paul E. Grant, 2208 No. 56th, \$4,500; deferred.  
Mrs. Arthur A. McKinney, 317 Carolyn Ct., \$6,975; no change.  
Mrs. Sidney C. Foska, 1645 Arapahoe, \$3,650; no change.  
Elmer G. Gerlach, 4020 B, \$4,050; no change.

## State Bureau Chief Pleads Innocent To Liquor Counts

Robert A. Pease, chief of the State Accident Records Bureau, pleaded innocent Monday in Municipal Court to charges of selling an alcoholic beverage on Sunday and selling an alcoholic beverage without a license.  
Pease, 40, was arrested following one of the periodic vice checks made by the Police Dept. Pease's trial was set for July 29 and he was released after posting a \$500 appearance bond.

(Gov. Ralph Brooks later issued the following statement: "Until I have a complete report and a chance to study it, I will have no further comment.")

Pease works part-time as a taxi cab driver. While on duty as a cabbie Sunday night Pease was approached by a newly-hired policeman wearing civilian clothes. The policeman, Thomas Cowan, reportedly asked Pease where he could buy liquor and Pease, police said, offered to sell him some.

Then Pease reportedly drove to 13th and F where his personal car was parked and got a partially-filled bourbon bottle from it and sold it to Cowan. Pease, who lives at 1545 Grace Dr., was arrested later and jailed overnight.

Pease has held his \$365 a month appointive post as head of the Accident Records Bureau in the State Dept. of Roads since 1956.

Cowan, who joined the Police Dept. in June, reportedly made a total of 10 contacts during the evening with cabbies and bell hops in a search for prostitution or illegal li-

quor activity, but no other arrests resulted.  
No prostitution activity was discovered.  
A bell hop reportedly offered to sell Cowan liquor but when Cowan accompanied him home the bell hop could not find any liquor, so no sale resulted.

## One Critical After Auto, Tractor Hit

A Tekamah man injured in a car-tractor accident about 7 miles north of Lincoln on U.S. 77 Monday morning was in critical condition at a Lincoln hospital.

Karl Cull, 20, suffered head and chest injuries when his car was involved in a rear-end collision with a tractor driven by Edwin J. Finigan, 37, of Rt. 3, the Safety Patrol reported.

Both vehicles reportedly were southbound at the time. Cull's car ended up in the ditch and Finigan's tractor in a field on the opposite side of the road following the impact.  
Finigan, who suffered back injuries, was listed in fairly good condition. He is a brother of State Agriculture Director Pearl Finigan.

## OAS Delays Decision

Washington (UPI) — The council of the Organization of American States (OAS) postponed until Thursday a decision on whether to investigate the Dominican Republic's charge of Cuban and Venezuelan aggression in the troubled Caribbean.

The Golden Grain Pours In

Lancaster County wheat harvest began rolling Monday as the golden grain began pouring into elevators following the weekend lapse created by rain. Connie Huncenga is shown taking a moisture sample

of wheat from the Earl Taylor farm at 56th & O, as Jim Jeannotte, who brought the wheat in, looks on. It weighed in at 54.6 with a moisture content of 14.2. (Star Photo.)

## Late Wheat Harvest Gains Momentum As Skies Clear

Hundreds of combines whirled in Nebraska wheat fields Monday as the 1959 harvest slowly gained speed after a wet weekend plagued operations.

The harvest, about a week behind in many areas, is expected to go into full swing this week if weather permits.  
Farmers are watching the skies and hoping predicted scattered showers will hold off until the wheat is under wraps.

"The harvest is going to move fast in the wheatlands south of the Platte," State-Federal Crop Statistician Kenneth Logan of Lincoln said Monday. "But it's going to have to stay dry for a while."  
Nebraska elevators reported increased wheat movement Monday, becoming heavy by evening.

## 20-25 Bushels

In the southeast, elevator operators indicated wheat was averaging about 20 to 25 bushels per acre on a 59-pound weight.

Some expressed concern over high moisture content, as the grain was testing from 13-16% moisture content. (Wheat should test no more than 13% for safe storage, studies show.)

## Today's Calendar

## Helpful Free Book For Folks Who Are A Little Hard of Hearing

NEW YORK (Special) — A hope-filled new book for folks who aren't deaf, but just a little hard of hearing, was hailed by S. F. Posen, noted acoustical scientist.  
Posen stated, "This valuable book can be a blessed comfort to folks who ask themselves: What caused me to lose some of my hearing? What can I do about it now? Will it get better or worse? If it gets worse, what can I do to overcome it?"

This authoritative book also reveals how new miracle electronic inventions make conventional hearing aids obsolete. There's no need to wear a button in the ear, no cord, nothing to hide in the hair or clothes.  
To acquaint readers of this newspaper with all the facts, this valuable book will be sent free on request. No obligation. Write: Dept. 2-902, Beltone Hearing Aid Co., 2900 W. 36th St., Chicago 32. A postcard will do.

THINK IN TERMS OF TOTAL VALUE

Join the Swing to Olds!

Apply your sense of values in choosing a new car, and you quickly settle on three basic questions:  
"What do I get for my money at the start?"  
"How much enjoyment do I expect from this investment?"  
"What will I get back at trade-in time?"  
Your Oldsmobile Dealer has some very gratifying answers to all of these questions.

The '59 Olds gives you quality features for your money that you simply can't find in any other medium-price car. You can count on Olds to give you continuous enjoyment and pleasure as long as you drive it. And to top it off, Olds traditionally delivers a higher percentage of its original cost at trade-in time. Your investment holds in an Olds!  
What more could you ask for in a new car? Talk to your Olds Dealer in terms of total value . . . you'll Join the Swing to Olds!

# Holiday Boating Mishaps Take Big Toll

## 3 Score Are Dead

By The Associated Press  
At least 60 deaths in boat accidents during the nation's two-day 4th of July celebrating highlighted starkly Monday the perils of boating's popularity boom.

Several of the accidents involved more than one death. The most costly in life was a collision of an auto ferry and a cabin cruiser in Lake Michigan off Muskegon, Mich. Six occupants of the smaller craft drowned.

In other fatalities, the craft involved were smaller, several of them homemade, and collisions were rare.

Four died in Elnor Lake near Corinth, N.Y., when a homemade boat with an outboard motor capsized, throwing 8 occupants into the water. Six were children, including two who died.

Two men and a 4-year-old boy drowned in Indiana's White River near Bedford after a rowboat carrying 6 persons was swamped by the bow wave of a passing houseboat. The child's life jacket was too large, and he floated with his head under water.

A rickety 12-foot flat-bottom boat with an outboard motor was swamped in Pushaw Lake, Me. A father and his two daughters died. Another occupant of the boat was rescued by fishermen. The girls weren't wearing life jackets. An outboard motorboat capsized in the Osewegatchie River in St. Lawrence County, N.Y., drowning two boys and a man.

## 15-Cent Loss Result Of Office Break-Ins

Only 15 cents was reported missing in two office break-ins at the Lincoln Liberty Life Bldg., at 113 No. 11th, police said Monday.

Burglarized were the third floor offices of the Nebraska Hardware Mutual Ins. Co. and two attorneys, Fraizer and Fraizer. The break-ins occurred over the weekend.

## 10,000 Shriners March As Potentate Installation Near

Lincoln Star Special  
Atlantic City, N.J.—Ten Thousand Shriners marched Monday in the first of two parades at the Imperial Council meeting here.

The parade took 5 hours to pass a given point as it wound through Atlantic City, clogged with 50,000 Shriners and their

## Californian Heads Shrine Recorders

Atlantic City, N. J. (AP)—Harlie K. Valentine, recorder of the Ben Ali Temple in Sacramento, was named president of the Shrine Recorders Assn., Monday.

The Shrine recorders are holding their 39th annual meeting in conjunction with the 8th annual Imperial Council session of the Ancient Arabic Order of Nobles of the Mystic Shrine.

Other officers elected were: Joe C. Howell of Hasan Temple, Albany, Ga., first vice president; J. Howard Sams of Sallam Temple, Newark, N.J., second vice president; and Albert Ellis of Mascot Temple, Wichita Falls, Tex., secretary-treasurer.

## Arkansan Named

Quinn Glover of Little Rock, Ark., was elected third vice president.

The National Court of the Royal Order of Jesters, an invitational honorary degree of Shrinedom, elected Carl A. Rahn of Billings, Mont., as its royal director.

## Other officers:

Stanley Garriss, Wichita, Kan., royal leading man; Charles G. White, Lakewood, Ohio, royal stage tragedian; Arthur C. Olson, Tulsa, Okla., royal stage manager; H. R. Fine, Fresno, Calif., royal leading lady; Paul W. Miller, Atlanta, royal heavy man; Howard A. Swarthwood, Birmingham, N.Y., royal light comedian; W. Reginald Shaw, Toronto, Ont., royal soubrette; Dr. Robert O. Brookhurst, Milwaukee, royal serio comic; Dewey E. S. Kuhns, Charleston, W. Va., royal character man; and Roland Thompson, St. Paul, Minn., royal property man.

Re-elected were W. Howard Millington, Pittsburgh, Kan., royal impresario; Arthur W. Wilharm, Pittsburgh, Pa., royal treasurer; and Thomas C. Law, Atlanta, royal prelate.

wives and a heavy vacation crowd.

Among the marchers were the band, foot patrol, motor scooter patrol, clowns, directors staff, Dixieland band, Hi-Five Minus Two, Divan and officers of Sesostri Temple of Lincoln.

Dr. Andrews  
Dr. Clayton Andrews of Lincoln, a former Potentate of Sesostri Temple, Wednesday will become Imperial Potentate of 810,000 Shriners on the

## Two Protestant Bodies Move Toward Merger

... United Church Of Christ Being Forged

Oberlin, Ohio (AP)—The latest style in church systems, both in form and manner, was introduced here Monday. In dramatic mood, officials laid out their recommendations for shaping America's newest denomination, the United Church of Christ.

Its basic apparatus was set forth in a proposed constitution, by-laws and lyrically-worded statement of faith.

"The work of our hand, and of the hand of many others is now before you," the Rev. Dr. James E. Wagner of Philadelphia, co-president of the church, told the opening business session of its general synod.

"All of it is submitted to your judgment."

More than 700 accredited delegates, representing the Evangelical and Reformed Church and Congregational Christian Churches, thus went to work in forging their joint future.

"Lead us, O God, beyond our own wisdom and understanding into a larger measure of the truth and spirit of Christ," they prayed as the meeting began.

The occasion climaxed 17 years of negotiations, plan-

ing and preliminary actions.

Together, the two bodies include 24 million members in 8,248 local churches across the country.

For their crucial conclave the delegates met in a big stone chapel on the green, tree-shaded campus of historic Oberlin College. A towering archway is inscribed with these words:

"The Lord Reigneth."

North American continent.

About 400 Nebraska Shriners, 300 from Lincoln, were on hand for the annual Imperial Council meeting, which winds up Friday.

Potentate Don Berquist of Lincoln's Sesostri Temple said he was extremely pleased with the turnout of Nebraskans and especially Lincoln nobles for the installation of Dr. Andrews.

Hotels and motels in the city were full to the brim as

Shriners and their families moved into this resort area, famous for its boardwalk and beaches.

## 54 Temples

Fifty-four of the 166 temples in North America sent representatives to the council meeting and 46 had units in the always colorful Shrine parades. Voting delegates were present from all 166 temples.

Potentate Henry F. Ederesen led the delegation from Tangier Temple of Omaha, which featured its Corvette sports car patrol.

Tehama Temple of Hastings sent a delegation headed by Potentate Adam Kohl of Hastings.

## Ike Wires

President Eisenhower and Gov. Robert B. Meyner of New Jersey sent greetings to the Shriners.

The President said in his message: "United in service to the traditional ideals of your historic order, you are able to advance the best interests of your membership and community."

"Your contribution to the Shriners hospitals for crippled children is especially noteworthy," Mr. Eisenhower concluded.

The bulk of the Lincoln delegation arrived in Atlantic City Monday morning by a special train which left Lincoln Saturday night, making stops in Chicago and Pittsburgh.

## U.S. Long Misunderstood Chinese—Visiting Historian

The reason the American people found it unbelievable when the Communists took control of China in 1949 was that the American impression of the Chinese was based upon false assumptions built up through the years.

This accounted for the U.S. miscalculation of Chinese acceptance of Communism, according to Dr. Paul H. Clyde, professor of history at Duke University, who spoke at Love Library Auditorium Monday.

His visit to the University was sponsored by the University's Summer Sessions and the Far Eastern Institute.

Only within the past few years has the United States developed educational programs concerning the Far East, he said. Americans have been strangers to the Far East, he added.

"And yet most of the as-

sumptions upon which the U.S. has acted were assumptions made before we knew anything about these people," he said.

The principal invalid assumptions he explained, were:

—that the Chinese looked upon America with much greater favor than they did upon Europeans.

—that although the Chinese were superstitious, and not too well educated, they were potentially very good people, and "if given the opportunity to become modern, they would model their ways after us."

These assumptions have proved erroneous and call for a reappraisal of our Far East foreign policy, the historian said.

## City Faces Problem

By WILLIAM O. DOBLER

It may be something we can put off to-day but the east-west traffic movement in Lincoln will cause plenty of headscratching in the future. This is the result of unfortunate development of the city in the past and its peculiar geographic condition. Lincoln is a funnel with an inadequate grid system of streets superimposed upon it.

Many times we have given thanks to those thoughtful people of years past who laid Lincoln out with its wide streets and generous rights-of-way. It is a fine thing they did but they failed

to go far enough — a vision which could hardly have been expected of them. All we need to do is take a look at ourselves to-day. How much do we do today which is aimed at conditions as they will exist in the year 2000? We are so short-sighted, in fact, that we are generally unable even to plan adequately for 10 years in advance. This is what Lincoln faces today and will face with growing urgency as time marches on. It is the inability of one generation to produce either the foresight or determination needed to make things easier for the next generation. What, for instance, were the thoughts of people when so many of the east-west streets in Lincoln were permitted to be dead-ended and interrupted in various ways?

O Street is the only through street in that direction within about a mile of downtown Lincoln. This places the central part of the city in a traffic vise with 9th and 27th as the jaws and O Street the main screw. This is now being painfully brought home to city officials.

State and federal road officials are concerned over the potential of East O as a major arterial. The present 66-foot O Street right-of-way may prove too narrow to handle the traffic demanded of it. And due to developments adjoining this right-of-way, it is virtually impossible to widen it. It can be improved from what it is—single-lane movement in both directions—but little more than doubled in capacity.

## Good Queen Bess

Chicago gave Britain's Queen Elizabeth the best welcome it could concoct, which by all manner of measurement was wholly expressive, in a Midwestern way, of America's affection for the charming monarch of a great world power which is also a great friend.

By contrast it was reminiscent of the days when Chicago's anglophobe mayor, the late William Hale Thompson spent more time indicting the British than in running his city. If Mayor Thompson truly sought to educate his fellow townsmen, several million citizens flunked the course with enthusiasm as this week's event so impressively demonstrated.

The visit was of great significance, for it was the first time in history that an ocean borne foreign monarch could reach the heart of America on the same boat that crossed the sea. The Queen's trip, among other things, stood witness to the completion of the St. Lawrence Seaway.

## No Time For Pessimism

The last hurrah of July 4, 1959, had not yet been uttered before the corporals of pessimism took pen in hand and filled the papers with a lament. The burden of it was the Fourth of July "ain't what she used to be."

No one can take issue with that in terms of form. Surely the Fourth of July ain't what she used to be, nor is any other day of the year. But that in itself is not a valid indictment of the essence of the Independence day spirit. The disappearance of the horse and buggy and the clouds of flies, the arrival of the automobile with its record for holiday mayhem, the sweet silence that denotes the absence of the congressmen and the old time inevitable Fourth of July speech, the lack of firecrackers, and the surplus of crucial world problems have marked some of the changes in the observance of the day. But no one can actually arise and say convincingly that these changes have washed away America's understanding of the significance of the day. There is better evidence that America is more realistically attached to its great privileges and much more greatly aware of how much they mean than in the old days.

A new and innocent generation can indulge in a fanciful nostalgia for the sweet

Federal officials believe this would not be adequate for handling the 1980 traffic load. And this is evidently what the government wants to build for if it builds anything at all. And the city needs the financial help the federal government is in a position to give to make the O Street improvement. What, then, is the answer going to be?

The answer will have to be found in an expansive and co-ordinated traffic program. This program will have to tie in O Street with other complementary improvements designed to relieve it of enough traffic to render whatever improvements are to be made adequate for the 1980 traffic load.

This, then causes one to look immediately at surrounding streets and we find Vine and Randolph as the nearest through pair. Both of these, however, are a long way from O and neither of them is in very good condition at this time. Randolph, particularly, and Vine west of 33rd are about as bad as streets can get in this modern day.

Thus, they will need substantial improvements costing a lot of money and will need access routes into the downtown area. For north-south streets serving as access routes, the city is in much better condition than it is when looking east and west. But these facilities, too, are limited. They are taxed already to capacity at peak traffic hours and a relatively few years will render them wholly inadequate, just as we now find East O. All of this boils down to the fact that the city faces a very formidable problem in traffic movement.

If the solution to this problem is found in expediency, we will have done perhaps irreparable harm to the future citizens of Lincoln. We can either burden this future generation with problems far beyond their financial ability or we can spend what money we have wisely. Any wise spending would be done according to a carefully prepared long-range plan.

But America's high approval of Britain's beautiful and charming queen was not of that stuff. It was rather that she is the personification of one of the great phenomena of a free democratic society. It produces leaders and rulers that can be trusted—civilized, rational and peaceable, of good sense and humanely disposed.

As one cons the history of human experience it is dismaying to note how many freaks and downright dangerous individuals ascend to power in the authoritarian type of society. From Ghengis Khan to Hitler, if one only wishes to contemplate that short span, the world has suffered greatly from the pathologic asocial traits of tyrants. In contrast the free democracies have produced a continuous flow of benevolent, humanely disposed leaders. This is one of the most powerful arguments in behalf of the free world, and, perhaps, the greatest refuge for troubled people everywhere.

Queen Elizabeth is one of the finest examples.

past that never really existed, but one of riper years refuses to go for the proposition that the bromidic thunderings of the old time Fourth of July orator carried a burden of good sense or fell upon ears leading to a discerning brain. Between firecrackers and the other noises of the old time Fourth, the firecrackers were way out in front, and if any of it were to be restored it is the firecrackers that should be—at five cents a bunch.

It is a sad commentary on a generation of pessimists which sees nothing but decline and apathy in two modern generations which courageously and resolutely poured out their lives to protect their country in a terribly dangerous world, and a current generation that is willing to take billions from itself to continue that security. And it is worth noting that while the pessimists are dipping their pens, there are other dedicated people risking their lives by the hour, high in the sky on a continuing alert, and young men in uniform in the farthest parts of the earth watching, watching, watching so that nothing evil can befall us.

It is a trying time in which to live, but it is not without significance that every day now has become independence day and we are observing it in a most realistic way.

## Israeli Storm Warning

The resignation of Prime Minister David Ben-Gurion as head of the Israeli government is more than a local political dispute. Should Ben-Gurion's power dwindle too far, as it may have done already, the West will have lost a champion in the strategic Middle East. And even more than that, his resignation is evidence of the fact that the world's problems are not confined to Germany.

The Arab-Israeli conflict itself has never

been resolved even though it is now in a state of suspended peace. The troubles Ben-Gurion is experiencing are not, it is hoped, an indication that things are about to erupt in this powder keg. But they are, at least, a sign that much is left to be done before security can be taken for granted.

The unrest within Israel has been created by Communist political parties over the highly emotional question of German military power. Playing upon the bitter war memories of the Jewish people of Israel, the Communists oppose the sale of arms to West Germany. Obviously, the Democratic processes which have been established inside free Germany have not done away with all fears of her military might and past aspirations of glory.

It is little wonder, then, that Germany presents a terrific problem to the United States. While this country seeks freedom and independence for the German people, there are many nations which still oppose such independence and do so on the basis of painful past experience. This practical human element, together with the endless gnawing away of Communism, will not let us forget that we have as big a challenge internationally as we have an internal one.

The day that we forget either of these things will be a day in which we sow the seeds of our own destruction. As painful and costly as it may be, we have no choice but to recognize the stake we have in such episodes as the Ben-Gurion resignation and similar happenings throughout the world.

"Peace, Brother—Don't Start Anything"

DREW PEARSON

## Solon Pressures For Ship Repair Interest

WASHINGTON — It looks as if the lobbying efforts of South Carolina's Congressman Mendel Rivers to get \$173,000 extra for a northern ship repair company had been largely stymied.

The South Carolina congressman, as previously reported in this column, has been pressuring Vice Adm. John Will of the Military Sea Transportation Service to get more money paid for the Power Equipment Corporation in Brooklyn, for the overhaul of the USS Randall which operates under MSTs. Admiral Will okayed an additional \$104,394 for extra work on the ship after Congressman Rivers telephoned him. On top of this, the Power Equipment Corporation put in an additional demand for \$173,150.61.

During the course of pressuring Admiral Will, Congressman Rivers also adopted the tactic of buttering him up.

If this wasn't enough reminder that the admiral should be kind to private companies like Power Equipment, Rivers added: "Whatever segment of private industry has the foresight to grab him (the admiral) was then about ready to retire" will be fortunate indeed... the experience of many commands, the mellowness and judgment that comes with this experience, and the insatiable drive to tackle baffling problems are qualifications which most surely will be sought out by the very

industry which at first held 'Dutch' Will in suspicion and within a few short years regarded him with great respect."

Then, just in case Admiral Will should retire before passing on the \$173,150.61, Rivers added a good word for his successor: "Admiral Will's relief has already been announced to be Vice Adm. Roy A. Gano, an able and gracious gentleman well-known in naval and commercial shipping circles, and a most wise choice to take over the world-wide complexities of the Military Sea Transportation Service..."

However, my energetic associate Jack Anderson upset the congressman's tactics. He began to bird-dog the story to find out why extra money was being awarded a repair company despite the opposition of subordinates. He was also interested in knowing why the congressman from South Carolina should help out a Connecticut Yankee working in Brooklyn. Anderson made so many inquiries that I can now report the navy has refused to give the Power Equipment Corporation the additional \$173,150.61. It finally decided to award only \$16,000, which is less than tenth the amount demanded for alleged "extra work."

Note — Admiral Will has now retired to become president of American Export Lines, a company which received considerable military cargo form MSTs.

DORIS FLESON

## Fire Turns From Politics To Art

WASHINGTON — For a change, the critics of Washington last week were aiming their dead cats not at its politics but at its social and cultural standards.

The shift started off briskly with disclosure that the chief justice of the United States had electrified a wedding anniversary party by calling the latest biographer of Vice President Nixon a "damned liar." The original story was written by a reporter who was a guest, and his hosts, reporters also, are not planning to ask him back any time soon.

Chief Justice Warren's friends also complain that he was badly let down by the press. Some reporters share that view and feel, too, that the old, cosy relationship between them and important "contacts" in the government will feel at least a temporary chill.

Soon afterward the nation's important Soviet visitor, First Deputy Premier Kozlov, found himself surrounded at a reception in the President's guest house by reporters who unabashedly took out pencil and paper to record the pointed remarks some of his hosts were making.

The President himself became involved at the cultural barricades set up by Chairman Walter of the House un-American Affairs Committee, who feels the United States art exhibit at the Moscow fair is unrepresentative of the country. Walter adduced testimony purporting to show that many of the artists had Communist leanings and he

didn't like their art either.

The President saw the pitfall of appearing to dictate what artists shall think and paint in a free society but, as an amateur painter himself, felt impelled to volunteer that he knew what he liked and it wasn't that particular art jury's choice. The jury had been chosen by educators and museum directors and they are defending themselves with considerable help from anti-censorship forces.

Books were already at issue since Postmaster General Summerfield banned "Lady Chatterley's Lover" from the mails. It has been widely noted that his action coincides with the hue and cry here over the Soviet suppression of "Dr. Zhivago" and Soviet threats against its author.

The situation only underlines that this is a one-industry city and that industry is politics.

It is news that the chief justice cannot abide his fellow-Californian Nixon — and incidentally bad news for Nixon, who has been cultivating just those circles in which the chief is revered. It is certainly news that this government has apparently decided not to shelter Kozlov from the American temper, for it casts doubt on the prospect for fruitful negotiations with the Soviet Union.

Culture and the politicians are of course old antagonists. In spite of the present flurry, the fact is that the situation is improving; no one of real importance here has joined the Philistines.

Copyright, 1959, By T. F. Syndicate

## LA VERNA HASSLER

## Patchwork Prairie Country

The fields of ripened grain are weaving a golden brocade across the land, for it is harvest time again — a harvest that never quite seems to be harvest because of its speed.

Remembering other harvests of long ago that lasted several weeks, I savor the sounds and smells of wagon wheels and sweating teams when man toiled with honest labor. There were the sacks of binder twine, clean and new, stacked in the shed beside the binder. There were fly nets hung beside each salt-stained harness set, for harvest time was always fly time. The teams were sleek and trustworthy, knowing their places when hitched to the reaper.

When the field was cut and the bundles put in shocks, it made a geometric pattern across the stubble field where farmers looked for comfort and wisdom and peace. There was a quietness across the fields when the sun went down and none disturbed the solitude except the call of the thrush that fell like the gentle sound of a murmured prayer...

This pastoral calm was not disturbed until the hay racks followed one behind the other through the field and carved a dusty road through the stubble. There was a rhythmic beat of hoofs and turning wheels squeaking and groaning under the load of golden sheaves. The great jaws of the threshing machine waited for each load as a hungry animal waits for its prey...

## BOB CONSIDINE

## Red Square Remains Photographic

NEW YORK — Newsmen assigned to make the Russian trip with Vice President Nixon have just received a series of hints, alarums and sober-sided facts from the State Department.

Reporters will be flown there in a chartered Pan American 707, and then transferred to smaller Russian planes for the jumps inside the Soviet Union. The State Department is unable now to guess at the cost of the trip to individuals except to say that Pan Am's charge for the roundtrip has been set at \$1,179.70.

State requires its own personnel assigned to Moscow to be inoculated against typhoid, paratyphoid, typhus, tetanus and smallpox, but says just the latter is enough for the reporters. On the question of drinking water:

"Moscow water is regarded as safe to drink, but tap water in other cities of the Soviet Union is an unknown quantity and you may prefer to drink bottled water."

Photographers who make the trip are warned that they must not take pictures within 25 kilometers of a frontier, or of any military technology and armaments, military objects and institutions, storage places of combustibles, seaports, large hydroelectric installations (sluices, dams, pumping stations), railroad junctions, tunnels, railroad and highway bridges, industrial establishments, scientific research institutions, design offices, laboratories, electric power stations, radio beacons, radio stations, telephone and telegraph stations, or from airplanes on flights over territory of the U.S.S.R.

That leaves Nixon and himself and Red Square as photographic subjects.

As for the American National Exhibition which Nixon will open July 25 in Sokolniki Park, the department predicts that it will draw 3,500,000 before it shuts down September 4. It is our first exhibition in the Soviet Union, after a quarter of a century of recognition. In contrast to the enthusiastic press the Soviet exhibition in New York received when it opened last week, Russian papers and radio have denounced the American fair as a fraud before it opens.

We were painfully modest at the Brussels Fair last year. In Moscow we'll display a little more muscle: cars from all U.S. manufacturers, a six-room ranch-type home completely furnished, an electric brain that answers questions in Russian, massive farm equipment, free Pepsi-Cola, free Polaroid shots, color TV, 110 varieties of frozen foods, the New York Philharmonic Orchestra, and Ed Sullivan variety show, a Walt Disney Circarama with Russian sound track, voting machines, and all the dazzling creature comforts with which this nation is blessed.

The fair will cost \$3,600,000, at least — "the best investment the government has made in a long time," as

chine waited for each load as a hungry animal waits for its prey...

The mingled smells of sweating teams and axle grease, of blackened smoke from the steam engine and the dry sweet smell of ripened straw combined to make a harvest long remembered. Barking dogs, a runaway team, chickens squawking to get out of the way of turning wheels and the shouting hired men above the din added to the excitement.

Such excitement was punctuated by the call for dinner that the womenfolk had worked all morning preparing, or the call of water boys. The silence was almost deadening when the great steam engine and threshing machine stopped for the noon hour and man and beast alike welcomed the short respite from toil. A time for dashing cold water in the face and waiting in the shade until all were ready to enter the kitchen at one time. A time of replenishing the body and soul with nourishing food

and stimulating talk, guessing the wheat yield and speculating on the storm clouds gathering on the horizon.

The teams drank long at the watering trough, their great wide nostrils blowing little ripples across the water. While their masters ate their noon-day fare, the animals also ate, until man and beast were ready for the labor of the remaining day under a relentless sun...

Today the harvest season is much shorter. Instead of the three or four weeks a threshing crew used to spend harvesting the grain, one man does it in three or four days. While the urgency to complete the harvest is still known to the farmers, much of the labor has been removed. This is as it should be if we measure progress. But in order to measure it correctly, it's good to look back once in awhile to see how far we have come. Once in awhile I approve of letting the past get into one's eyes if it clears them for taking a better look at the present.

## Your Four Cents Worth

Brevity in letters is requested, but length in itself will have no bearing on publication. Writers are advised that needless detail and repetitions matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name, but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials only at the editor's discretion.

## Forty-Year Stretch

Lincoln, Neb. — By killing Sen. Orme's bill, LB606, by a vote of 26 to 15, the Legislature refused for the tenth session in a row to permit the people of Nebraska to vote on whether or not they favor calling a constitutional convention to revise and update their state constitution.

A goodly portion of the constitution dates from 1875 after it was originally framed by a constitutional convention and adopted by popular vote. It has been revised only once during the 85 years since. In 1920, after a lapse of 45 years, a constitutional convention drafted and submitted a long overdue 41-amendment revision that was ratified by the voters. Now, 40 years later, after four decades of the most fundamental and rapid changes the state, nation and world have ever known, the need for a second thorough revision is even greater.

The Nebraska constitution like those of the great majority of the states recognize the need of revisions from time to time by providing for the calling of a constitutional convention for that purpose. But such calling must first be approved by popular vote at a general election.

However, this vote cannot be taken unless an act to permit the question to be submitted to the people is agreed to by three-fifths, or 26 of 43 members, of the Legislature.

Thus as few as 18 members of the Legislature have the constitutional power to prevent indefinitely even the possibility of calling a convention.

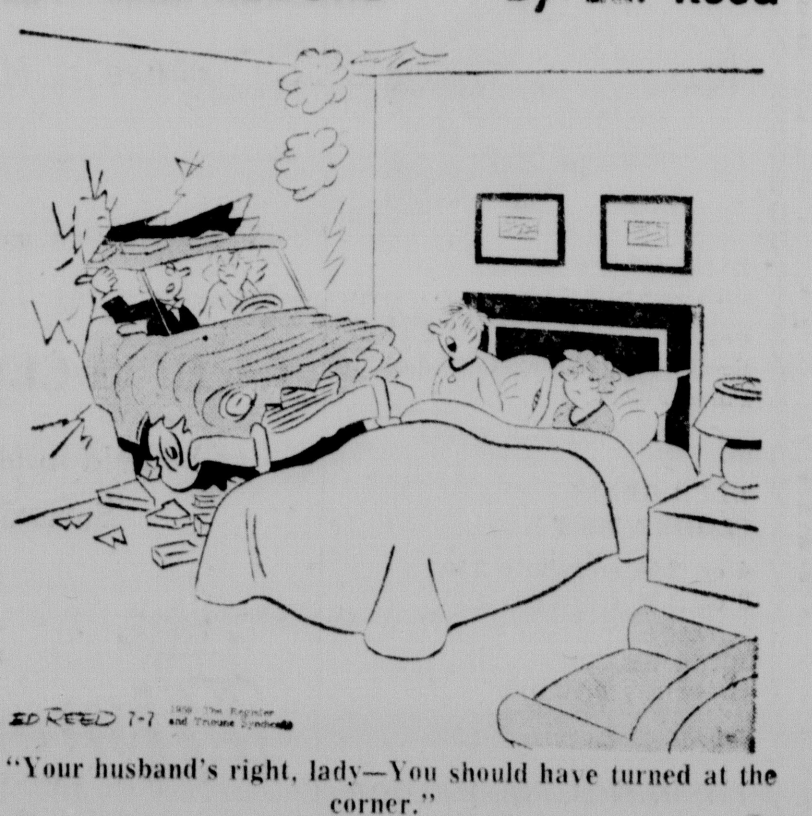

It seems clear that the expectation of the constitution-makers was that the question of a revision of the constitution would be submitted to the people at reasonable intervals and decided by popular vote. They never anticipated that any Nebraska legislature would be so fearful of change, so tory-minded and distrustful of the people as to arrogate this decision to itself and continue to refuse to permit the people of the state to exercise their constitutional right to decide by their votes whether a constitutional convention should be held after a lapse of 40 years of unprecedented change without a revision.

There appear to be two ways by which the advocates of calling a constitutional convention can overcome the opposition of the Legislature. The first and most practical is by organizing a successful campaign to elect at least 26 members of the next Legislature pledged to vote for the submission of the question to the people for decision. The second, and more complicated and difficult, is to use the popular initiative to submit to the voters a self-executing amendment to the constitution providing for the early calling of a constitutional convention after its adoption.

## Stanton Delaplaine's POSTCARD

This is the season of vacation. Time to relax. I am so relaxed. I am pretty near a wreck.

The problem with relaxing is that it is so hazardous. This is the season of sunburn, poison oak and sharp things you step on with your bare feet. It is a wonderful season for drug stores.

Nevertheless, we must relax if it kills us. All doctors are in agreement on this and my own medic recommends it constantly.

"Take it easy," he says, swinging from the chandelier. That cat makes me nervous just to talk to him. What an ad for Miltons.

800 So. 13th St. Ph. 2-8851  
(Established 1927)

Anyway, I have been studying relaxation. For instance: "A housewife with four beds to make can save herself more than 11 miles a year."

This is a juicy bit of relaxing figured by Marion Melrose of Minnesota.

"The housewife can save 40 feet of walking per day by starting at the head of the bed, completing one side, then going across and working from the bottom to the top."

These things fascinate me and immediately I tried making a bed that way—first from the top on one side, then from the bottom on the other.

Well, the sheet does not come out even. That is what happens. Let Marion make the bed and lie in it. I would not sleep in such a bed.

You take the top and you put the sheet and blankets just so. Then you go along the edge, tucking them in.

Then you start the other side, tucking in from the bottom. When you reach the top, the sheet on that side is two feet shorter. It is a diagonal bed and you would have to sleep crosswise. Pooley on advise.

I vacation in Carmel Valley, Calif., a few miles from Monterey. At Los Laureles Lodge, the former home of Muriel Vanderbilt.

I do not make my bed at Los Laureles. They have a lady come in and make it. She does not make four beds a day, she makes about a dozen.

She does both sides from the top down. If she did it the other way, she would save 33 miles a year. But the guests would all be diagonal and hardly relaxed at all.

I do not see many bikinis on the Carmel beach. You have to get close to a bikini to see it at all. But I took a long, relaxing walk and made a close study.

For months during the winter, I read that EVERYBODY would wear short, short bikinis.

"BIKINIS DUE FOR COMEBACK."

That was a headline I remember. There were a lot of such stories. They said that these revealing swim suits had never caught on in the States. (Though they were de rigueur on the French Riviera). But now, this year, all the American ladies would slip into these things. And devil take the hindmost.

I was really looking forward to summer. Because I never had enough money to play the Riviera route. It was nice to think that the scenery was being moved over here.

But nothing. It was an invigorating walk. But there was not a bikini on the beach. The beach was simply full of ladies in ordinary bathing suits. Relaxing and rubbing sunburn lotion into themselves.

They made their beds out of beach towels. They started at the head and flung it out. Then they walked down to the bottom and straightened it out. By that time, the wind had blown the head over to one side.

Then they walked to the head and straightened that out. And the wind blew the lower part to one side. So then they stood with one foot on the bottom part and tried to lie down before it blew away.

And I thought, "How in the world can you relax when you can't even get the beach towel to lie still?"

That is the problem with relaxation. It is exhausting.

McNaught Syndicate, Inc.

**Laity For Pulpit**

Evansville, Ind. (AP)—The Evangelical and Reformed Church is considering commissioning "lay leaders and lay readers" to meet an acute shortage of clergymen, says the Rev. Dr. John R. C. Haas, first vice president of the denomination.

## 2 Motor Vehicle Divisions Joined

State Motor Vehicles Director Al Scissors announced Monday he has combined two divisions in his department under a single division as an economy and reorganizational move.

Combined are the divisions of driver license examinations and the division of driver license records.

William Edwards, chief of the examinations division, Scissors said, will serve as chief of the combined division.

Ray Elam, a state employee for 37 years, and former chief of the license record division, has left state employment.

## R.G. TO FLY TO SEAWAY DEDICATION

Gov. Ralph G. Brooks will fly from Atlantic City to Duluth for the dedication of the St. Lawrence Seaway, his ad-conrad said Monday.

The governor plans to return to Lincoln Sunday, July 12, Conrad said. The trip to Atlantic City is to attend the national Shriners' convention. The governor is traveling in the state airplane, which will receive engine work at a stop along the way.

## JUNE GAS TAX FUNDS TO HIGHWAYS, COUNTIES

The 93 counties in Nebraska will receive \$684,249 in gasoline and fuel tax money collected during June, State Treasurer Richard Larsen announced Monday.

Another \$552,655 will go to rural-star mail routes.

The largest part, \$2,247,467, will be used for highway construction, Larsen said.

The dealers will be refunded \$23,359 and agricultural refunds total \$67,677.

There was \$3,635,391 in gasoline tax and \$160,018 in special fuels tax collected in June.

The amounts received by counties is as follows:

Adams \$16,977, Antelope \$10,434, Arthur \$1,237, Banner \$1,945, Blaine \$1,301, Boone \$9,284, Box Butte \$7,782, Boyd \$1,308, Brown \$4,332, Buffalo \$16,447, Burr \$9,638, Butler \$10,168.

Cass \$12,114, Cedar \$11,937, Chase \$1,680, Cherry \$7,604, Cheyenne \$10,964, Clay \$7,781, Colfax \$7,669, Cumming \$11,229, Custer \$17,151, Dakota \$6,208, Dawes \$6,729, Dawson \$14,236, Deuel \$3,271, Dixon \$7,879, Dodge \$15,003, Douglas \$2,341, Dundy \$1,191.

Fillmore \$9,542, Franklin \$5,012, Frontier \$3,201, Furness \$2,437, Gage \$19,977, Garden \$4,244, Garfield \$2,329, Gosper \$2,361, Grant \$1,376, Greeley \$5,040, Hall \$19,011, Hamilton \$2,011, Harlan \$5,024, Hayes \$2,829, Hitchcock \$3,040, Holt \$12,641, Hooker \$1,061, Howard \$6,297, Jefferson \$10,434, Johnson \$6,297, Kearney \$5,024, Keith \$6,450, Keya Paha \$2,918, Kimball \$2,890, Knox \$12,996, Lancaster \$48,553, Lincoln \$18,215, Logan \$1,502, Loup \$1,391, Madison \$15,631, McPherson \$1,325, Merrick \$7,427, Morrill \$7,427, Nance \$3,659, Nemaha \$8,754, Nuckolls \$7,769.

Osceola \$13,440, Pawnee \$6,631, Perkins \$4,051, Phelps \$9,897, Pierce \$6,311, Platte \$14,726, Polk \$2,339, Red Willow \$6,311, Richardson \$12,691, Rock \$3,271, Saline \$11,229, Sarpy \$13,791, Saunders \$14,590, Scotts Bluff \$22,674, Seward \$11,229, Sheridan \$8,133, Sherman \$3,850.

## 59-Year-Old Mother, Son Bound Over For Trial In Murder Case

Butte, Neb. (P) — Mrs. Sadie Dickerson and her 18-year-old son, Nyal Franch, who live near Naper, were bound over to District Court Monday for trial on charges of first degree murder.

The action followed a preliminary hearing for Mrs. Dickerson, 59, before County Judge J. P. Classon. A hearing for Franch was waived because testimony would have covered the same ground.

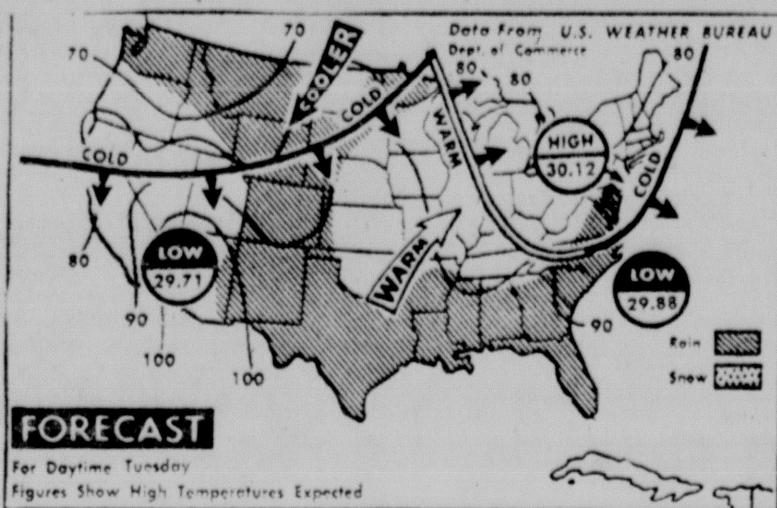

The two are charged with the slaying of Frank Vanderlinde, 21, Mrs. Dickerson's

investigator Gerald Tesch testified that Mrs. Dickerson had admitted the slaying. She has since denied it.

A physician testified Vanderlinde died of a brain injury. He said the brain had been penetrated 4 1/2 inches.

The next term of District Court at which Mrs. Dickerson and Franch probably will come to trial will be in September.

Meanwhile, Mrs. Dickerson is being held in jail in O'Neill and Franch in Butte.

### Part Of Central Plains May Get Rain

Scattered thundershowers are forecast Tuesday for the southeast and some coastal sections of the middle Atlantic states. Isolated thundershowers are expected to develop in the Gulf states, southern Plains and southern Rockies. A few showers are likely along the north Pacific coast and upper Lakes region. Some showers and thundershowers are in prospect for the north and central Rockies and parts of north and central Plains. (AP Wirephoto Map)

### \$414,706 Budget Given Okay For Holdrege Schools

Holdrege, Neb. (P) — The Board of Education has approved a budget of \$414,706 for the 1959-60 school year, an increase of \$27,296 over the previous year.

A spokesman said the biggest part of the increase will go for salaries. About \$6,000 will be needed to meet requirements of Nebraska's new school fire code.

The budget will require a 48 mill levy for the coming year as compared with 42.5 for the past year.

### Employment In Omaha Area At All-Time High

Omaha (P) — The Omaha Council Bluffs area has an all-time high employment rate of 181,500, a gain of 5,750 jobs from May of 1958 to May, 1959.

The Nebraska Division of Employment Security said some shortages of skilled workers exist.

In terms of payroll dollars the gain means at least a half-million dollars more in the two-city area. Unemployment is at the lowest point since 1956.

### Man Bitten By Rattler 'Good'

Beatrice, Neb. (P) — A beatrice man, Harold Corey, 29, bitten by a rattlesnake, was in good condition Monday.

Corey was fishing with 4 brothers on Mission Creek south of Wymore when he slipped down a bank and was bitten by a snake. A high speed trip to Lincoln by Deputy Sheriff Calvin Gullion to obtain serum is believed to have saved the Beatrice man's life.

### 24 New Oil Fields For West Area

Sidney, Neb. (P) — Twenty-four new oil fields were opened up in western Nebraska during the first 6 months of this year.

Fourteen of the new producing areas were in Kimball County, 7 in Banner County and 3 in Cheyenne County.

Kimball and Banner Counties continued to hold the spotlight as the last half of 1959 began, but the first week of July has not been of notable importance in the exploration and development business.

Kimball County got 4 new field producers, Banner had 6 wells plugged as dry holes for a disappointing week and Cheyenne County had no known drilling activity under way.

The new wells in Kimball County brought the total number of wells completed as producers in the county since oil was first discovered there in 1951 to 1952.

### Straatman Takes Holdrege Post

Holdrege, Neb. (P) — Verle Straatman, high school band director at Hildreth the past 5 years has been named band director of the Holdrege public schools. A graduate of Kearney State College, he presently is in summer school there.

Richard O'Neal, principal and guidance instructor at Kimball for 9 years, will become Holdrege schools guidance instructor in the fall. O'Neal holds degrees from Hastings College and the University of Wyoming.

### Harris Is Leaving Humphrey Position

Humphrey, Neb. — Supt. and Mrs. Edward Harris have both resigned from the Humphrey public school faculty and have accepted positions at Valentine.

Mr. Harris, who has been coach as well as superintendent, will be grade school principal. Mrs. Harris will teach in the junior high school.

### Dr. Ingham Back

Norfolk, Neb. — Dr. Charles G. Ingham, Norfolk State Hospital superintendent who was given a 6-month leave of absence to take a post-graduate course, has returned to his duties. He took his post-graduate work at the Nebraska Psychiatric Institute at Omaha.

## SUSAN HAYWARD

—Hollywood's hot-tempered hellcat!

In recent years, Susan Hayward has been embroiled with the cops three times. Once when she tried to commit suicide. Once when she took part in a wild free-for-all in her home. And a third time when she belted a jealous starlet!

In this week's Saturday Evening Post you'll meet this fiery redhead and learn:

- how she believes a low-cut housecoat is the secret to a happy marriage.
- the startling reason for her suicide attempt.
- all about her hectic marriage to Jess Barker.
- how her husband chased her nude around the swimming pool.

Don't miss "Hollywood's Late-Blooming Redhead."

### Sen. Simmons Will Dedicate New Bridge

Scribner, Neb. — State Sen. Ray Simmons of Fremont will deliver the main address here Thursday afternoon at the dedication of the new \$137,000 bridge across the Elkhorn River on the Scribner-Herman road.

Scribner residents are asked to gather at 4:30 p.m. Thursday at the Scribner City Park. The school band will

lead a parade to the bridge. Mayor John Lamberty will give the welcome. Supervisor Ed Meyer will cut the ribbon, followed by introduction of the distinguished guests.

Among the dignitaries planning to attend will be R. L. Cochran, state engineer, and Robert B. Conrad, assistant to Gov. Ralph Brooks.

Three Scribner men are regarded as the prime persons responsible for construction of the new bridge. They are Clarence Zucker, Edgar Havekost and former Mayor Oscar Aldrich.

The new span replaces a one-way bridge, built in the early 1900s. The old span will be torn down shortly after the new bridge is officially opened to traffic. The Scribner-Herman road is a secondary county road.

### Studying Abroad

Wymore, Neb. — Barbara Hevelone, 19, daughter of Mr. and Mrs. G. E. Hevelone of Wymore and a student at the Conservatory of Music at Kansas City, Mo., has gone to Salzburg, Austria, to study. She will be at the Mozarteum, where she has received an alternate scholarship.

### Wayne State Summer Enrollment Increases

Wayne, Neb. — Summer enrollment at Wayne State Teachers College stands at 843, a slight increase over last year, Registrar Milton Childs reported. Last year the total stood at 832.

### Wood Installed

North Platte, Neb. — Wendell Wood has been installed as president of the Rotary Club at North Platte, succeeding Rich Birge Jr. Other officers are Neal Baxter, vice president; Bill Elder, secretary-treasurer; and Jess Nielsen, Joe Dye, Dean Haase, and Birge, directors.

# 5% Hog Slaughter Increase In May

... Over Year Earlier; Down From April

Nebraska's commercial hog slaughter in May was 5% above the same period last year, but down 10% from the preceding month, April, the State-Federal Division of Agricultural Statistics reported Monday.

May figures totaled 255,533,000 pounds live weight. It consisted of 308,000 hogs compared to 286,000 killed during the same period a year ago and 373,000 killed the previous month.

The average weight of hogs slaughtered during May was 264, six pounds heavier than last month's average and unchanged from a year ago.

Cattle slaughtered in Nebraska during May totaled 159,000 head compared to 150,000 slaughtered in May of

last year and 169,000 slaughtered the previous month.

Cattle slaughtered in May averaged 1,035 pounds per

## Nebraska News

head, a pound lighter than last month but 17 pounds heavier than a year ago.

Calf slaughter in Nebraska is up sharply from April at 1,600 head. This is a 60% increase over the April kill of 1,000 head and 78% increase over the 900 killed a year ago.

Calves averaged 489 pounds in May compared to 466 in April and 467 in May last year.

Sheep and lamb slaughter for May is down 23% from last month at 87,000 head. It was 90,000 a year ago. The average was 102 pounds compared to 108 for April and 104 for May last year.

For the U.S. as a whole, red meat production was 4% above May last year at 2,021 million pounds, but 6% below the previous month of 2,156 million.

## Swanson Gets Elks Office

Chicago (AP) — An Idaho lawyer Monday was elected head of the Benevolent and Protective Order of Elks.

William S. Hawkins, 48, of Coeur D'Alene, Idaho, was named grand exalted ruler for 1959-60. Hawkins, who ran unopposed, will hold the post for one year.

Other officers elected included: W. K. Swanson, McCook, Neb., Grand Esteemed Lecturing Knight.

## Rev. Ramos Leaving

Burwell, Neb. — The Rev. A. M. Ramos, pastor of the First Congregational Church in Burwell for the past 3 years, has resigned, effective Aug. 31. He has not announced his future plans.

## Jurgen's Farm Dedicated For Church Camp

Fremont, Neb.—Ceremonies were held near here marking the dedication of the property, formerly the Jurgen's farm, for a camp and conference grounds for the United Presbyterian Church of Nebraska.

Dr. Silas G. Kessler, pastor of the First Presbyterian Church at Hastings and chairman of the Nebraska Synod camp and conference committee, was in charge of the dedication. The grounds are located on the south bank of the Platte River, about 6 miles southwest of Fremont, near Camp Cedars, the Boy Scout camp.

Others participating in the dedication were the Rev. Thomas C. Huxtable, pastor of Eastridge Presbyterian Church of Lincoln, and chairman of the Synod Camp Development Committee; the Rev. David A. Cunningham, pastor of the Presbyterian Church of Schuyler and moderator of the Synod of Nebraska; Elmer Jackson, moderator of the youth of the Synod of Nebraska; and the Rev. Vernon C. Richard, field director for Christian Education in the Synod of Nebraska.

## DIVIDEND TIME

# Candlelight Service

MRS. JOSEPH H. HAHN

For the wedding of Miss Shirley Ann Diekmann, daughter of Mr. and Mrs. Orville J. Diekmann, and Joseph H. Hahn, son of Mr. and Mrs. Alfred Hahn of DeWitt, which took place Saturday evening, June 6, white summer blossoms and lighted candles appointed the chancel of Calvary Lutheran Church. The lines of the 7 o'clock service were read by the Rev. W. W. Koenig in the presence of 125 guests.

Mrs. Wilmer Beeche of DeWitt, the matron of honor, was frocked in pink brocade silk, the snug bodice and ballerina skirt draped with chiffon ending in butterfly panels at the back. Costumed identically in aqua were the bridesmaids, Miss Janice Buss of DeWitt and Mrs. Donald Davidson. They carried bouquet of carnations.

Serving as best man was Wayne Hahn of DeWitt, and the ushers were Allan Hahn, Shelton; Wilmer Beeche and Bob Mahloch, DeWitt; and Marvin Guebert, Red Bud, Ill. Mike Diekmann and Allen Diekmann lighted the candles.

White Chantilly lace and tulle over satin fashioned the bride's colonial gown. Appliqued medallions of the lace dotted with pearls and sequins edged the V neckline of the long-sleeved bodice, and the lace extended below the narrow waist to form a scalloped peplum over the full tulle skirt, which ended in a whisper train. Her illusion veil was held by a halo brim of lace and pearls, and she carried a white prayer book ornamented with a white orchid and showered with pink rose buds and strands of pearls.

Upon returning from a wedding trip to the Black Hills, the couple will reside in Beatrice.

## Dear Abby . . .

### He's Determined!

Abigail Van Buren

DEAR ABBY: When you read this you'll have heard everything. Ten years ago I sold my home and moved out of the neighborhood to escape a gold-digger who was after my husband.

She divorced her husband to be ready when mine divorced me.

When he realized that all the money and property was in my name, he changed his mind and decided to stick with me.

Now in his SEVENTIES he has started up this romance again.

After putting up with him for 49 years I do not intend to disgrace my children and grandchildren by going through a divorce. How can I keep him in line?

#### NO DIVORCE

DEAR NO: Oftentimes the lack of cash in a man's pocket will keep him in line when his moral principles have failed to do so. One way to ground a livewire is to short circuit his allowance.

DEAR ABBY: I was disappointed in your advice to

that woman who was arguing with her husband about what kind of funeral to give him.

Why didn't you tell her to promise him a military funeral like he wanted? He was a veteran and was entitled to it.

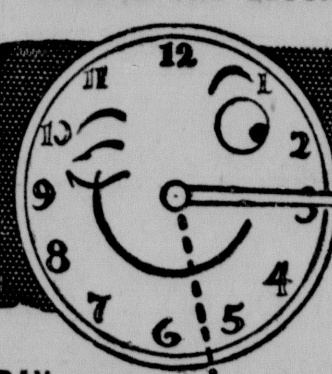

The wife said she wanted to "put him away in style." Maybe you didn't see pictures of Dulles' funeral? If that wasn't "style" I'd like to know what was? Some people are never satisfied.

MORRIS

DEAR ABBY: Someone should set you straight about government burial. The government doesn't "bury" anybody. They give you a certain amount toward the funeral.

I lost my son (in Korea) ten years ago and at that time they gave me \$150 to

# TALK OF THE TOWN

by EDITH HEAD (with Jane Kesner Ardmore)

—Life goes on in the serene fashion it usually does after a holiday week end. To be sure, the holiday and the week end have departed, but they still are reverberating—We have some holiday and week end guests to mention this morning, plus some Fourth of July news from various Bassinet circles. The news, however, doesn't stop there—

—We're sure you will be interested in learning that Mr. and Mrs. Charles Haupt are to be Lincoln residents. Until the young Haupts, who are just returning from their honeymoon, find their own rooftop they will be the guests of Mr. Haupt's parents, Mr. and Mrs. Samuel Haupt.

Before her marriage on June 13, Mrs. Haupt was Jan Nelson of St. Paul, Minn.

—Understand that Mr. and Mrs. Hal Thorson, Jr., and

their daughters, Paula, Leslie and Holly, have arrived from Houston, Tex., and plan to divide their vacation between Mr. Thorson's parents, Mr. and Mrs. Hal Thorson of Lincoln, and Mrs. Thorson's family, Mr. and Mrs. Paul Little of Kearney.

This morning Mrs. Thorson will be a coffee hostess at her home in courtesy to her daughter-in-law. The guest list will include Gamma Phi Beta sisters of Mrs. Thorson, Jr.

—Someone told us that Mr. and Mrs. D. C. Leach and their daughter, Mary Jo, came from Kansas City late last week to spend the Fourth of July week end at the house guests of Dr. and Mrs. Robert Garlinghouse.

—And since we are on the subject of guests we think you might like to know that Mr. and Mrs. Orval C. Kildebeck and their three children, Jim, Tom and Jane, of

Torrington, Wyo., arrived on Monday for a visit with Mrs. Kildebeck's father, Prof. O. H. Werner, and Mrs. Werner.

—Now for our Fourth of July babies — First we learned that John Wesley Sinclair, Jr., arrived on July 4, in Mt. Clair, Calif. John, Jr., a Phi Gamma Delta legacy, is the son of Mr. and Mrs. John Wesley Sinclair, and his mother is the former Jane Dana, daughter of Mrs. A. A. Olson.

Mrs. Olson, by the way, left yesterday for Mt. Clair and a glimpse of her new grandson, and for a visit with her son-in-law and daughter—and their two older children, Christine and Stephen.

—A young lady who henceforth will celebrate her birthdays on July 4 is Mary Patricia Brady, daughter of Mr. and Mrs. Tom Brady, who arrived at Lincoln Gen-

eral Hospital on Saturday, July 4. Mrs. Brady is the former Sally Sampson, daughter of Mrs. Herbert Sampson and the late Dr. Sampson, Mr. and Mrs. Earl H. Brady are the paternal grandparents.

—We have just heard that Col. and Mrs. John B. Richardson and their son, John, will be leaving Lincoln around the forepart of August and, after spending a leave on the west coast, will be taking off for Col. Richardson's new tour of duty in Korea.

In courtesy to Mrs. Richardson Mrs. James Wheaton was a luncheon hostess on Monday at her home.

—And mention of the Wheatons remind us that Capt. and Mrs. Wheaton and their children, Jay, Mike, and Betsy, also will be leaving Aug. 1, for Germany where Capt. Wheaton will be stationed.

What impressed me at the time that I worked with Elizabeth Taylor on "A Place in the Sun," was that she was afraid of nothing. She was playing a very taxing picture with a very important producer-director; she showed not the slightest strain; she took each day in stride. I found this same attitude several years later when she suddenly replaced Vivian Leigh in "Elephant Walk."

Many things had happened to Elizabeth, her first marriage had collapsed; she was now married again, had just had her first baby, and was stepping into the shoes of one of the world's top actresses almost on a moment's notice. She was more sophisticated, and more individual than ever in her beauty; she had acquired a great sureness about clothes and fashion; but she still took each day as it came and displayed not the slightest apprehension about anything.

From Liz I learned about normal teen-age; and its point of view is a law unto itself. It doesn't necessarily follow the dictates of fashion; it follows its own dictates—and I think it should.

This is an age of great creativity; they're trying to work out a fashion vocabulary for themselves, and it's a group vocabulary to which a girl had better adhere. It's very unwise to isolate a girl and make her "different." Ask any teen-ager! The objective of the teen-age look is to be very casual when you're casual, and very dressed up—no in between.

Day clothes are underplayed (deliberately of course); evening clothes are for more sophisticated and older than a teen-ager should wear. The day clothes could be worn by a five-year-old, the evening clothes by a twenty-five-year-old.

Elizabeth at seventeen was my guide on the teen-age point of view. She sold me completely. I figured if all teen-agers had this joie de vivre, they could ignore high fashion.

(On Thursday, Miss Head tells of Mitzi Gaynor and Veronica Lake.)

## Suburbia Is Brimming With News

### EASTRIDGE

Understand that Dr. and Mrs. Dale Ebers have had as their recent guest, Mrs. Ebers' nephew, Tommy McCracken, of Rising City.

A neighborhood coffee was the means of catching up on recent news June 25. It was held at the home of Mrs. William A. Sommer.

Leaving Eastridge to return to Omaha after spending a week, including the Fourth of July holiday, were Mr. and Mrs. Hodge Jones. They were guests at the home of their son-in-law and daughter, Mr. and Mrs. Clarence Gordon.

Traveling to Fairbury for the Fourth of July week end were Mr. and Mrs. Ray Manning and their four children, Mike, Steve, Michele, and Stephanie, who were the guests of Mr. and Mrs. Stuart Mosimum.

Chicago was the destination when Miss Linda Mallon, daughter of Mr. and Mrs. James Mallon, left by train from Omaha Wednesday evening. She is spending a week as the guest of Vicki Kreymborg, daughter of Mr. and Mrs. Robert Kreymborg.

### Plan Dance

Executive committee members of the College View Alumni met recently to complete plans for the group's annual dinner-dance. The affair will be held Saturday evening, July 11, at the Lincoln Hotel.

who, as you know, formerly lived on Eastridge Dr. before moving to Chicago.

More people traveling to Il-

inois were Capt. and Mrs. William J. Heath and their three children, Bobby, Billy, and Connie. The Heath family spent a week in Polo, Ill.

## Marriage Solemnized

MR. AND MRS. DONALD A. WENZ

White gladioli and Majestic daisies decorated the altar of St. John's Lutheran Church at Chester, Ill., on Saturday, June 20, for the wedding of Miss Una Fay Gremmels, daughter of Mr. and Mrs. Lester W. Gremmels of Granite City, Ill., and Donald A. Wenz of Urbana, Ill., son of Mr. and Mrs. Arthur F. Wenz. The late afternoon service was solemnized by the Rev. F. Gereke.

Miss Donna Mae Brejle of Chester, Ill., as the maid of honor, and the bridesmaid, Miss Judith Peterson, Petersburg, Ill. wore alike frocks of white organdy, sashed in pink taffeta in the Empire mode.

Serving as best man was Richard L. Wenz of St. Louis, Mo., and the ushers were Rolland W. Ahrens, North Augusta, S.C.; Arthur Dean Ballman, Steeleville, Ill.; and Bobby Jean Duensing, Chester, Ill.

The bride's gown of white silk organza over taffeta was trimmed with imported lace. Appliques of lace, dotted

with pearls, and sequins, framed the rounded neckline and continued into the brief, shirred sleeves, which were completed by long mitts, and the lace motif was repeated in the trim of the wide, founced skirt which extended into a train.

The couple will reside at Urbana, Ill., where the bride is a student at the University of Illinois. Mr. Wenz who is a graduate of the University of Nebraska where he also received his Masters degree, is a graduate student at the University of Illinois and a member of Alpha Chi Sigma fraternity, Phi Beta Kappa, Sigma Xi, Phi Lambda Upsilon and Pi Mu Epsilon honoraries.

at the home of Mrs. Heath's parents, Mr. and Mrs. O. J. Davis.

Recent guests at the home of Capt. and Mrs. Donald E. Graham were Capt. Graham's brother and sister-in-law, Mr. and Mrs. Wayne Graham and their children, Terry, David and Jane, of Fremont, Ohio.

News from the stork tells us of the newest member of the young set in Eastridge. Frank Allen Hruby, son of Mr. and Mrs. Cyril Hruby of 2845 Randolph, made his premier appearance July 1st at St. Elizabeth Hospital.

Eagerly awaiting Frank Allen's arrival at home are his sister, Susan Marie, 3, and his two brothers, Daniel Joseph, 2, and Kenneth Lee, 1. The paternal grandmother is Mrs. George Seamen, and the maternal grandparents are Mr. and Mrs. Bernard Harre of Exeter. Mrs. Hruby was formerly Bernita Harre.

Entertaining at a potluck patio supper and bridge party at their home Friday evening were Mr. and Mrs. Douglas E. Brogden. Couples participating included Mr. and Mrs. James Mallon, Mr. and Mrs. Jack Bower, Maj. and Mrs. Fred Bockoven, Mr. and Mrs. William Smiley, and Mr. and Mrs. Richard Freeman.

## To Hear Speaker

The regular meeting of the Lincoln Air Force Base NCO Wives Club will be held Tuesday evening at the NCO Club.

Miss Beverly Trumbull, who is studying for a Masters Degree in psychology at the University of Nebraska, will be guest speaker and her topic will be, "Child Development and Home Management."

Hostesses for the social hour will be Mrs. Jewel Martin and Mrs. Elvin Faaborg.

## Had Home Ceremony

MR. AND MRS. JOHN THOMAS HARRIS, JR.

Miss Peggy Lee Hagemester, daughter of Mr. and Mrs. Lee D. Hagemester of Estes Park, Colo., became the bride of John Thomas Harris, Jr. son of Mr. and Mrs. John F. Harris of McCook, on Sunday afternoon, June 28, at the home of the bride's parents.

Wearing waltz-length frocks of embroidered silk organza in the coral tone with matching hats were Mrs. Clark Nichols of Scottsbluff, who was her sister's matron of honor, and the bridesmaids, Miss Beverly Dixon, Papillion, and Mrs. James Girardin, Broken Bow.

William Harris of McCook served his brother as best

man, and the ushers were Donald Glaze and Lt. Richard L. Trail, McCook, and James Girardin, Broken Bow.

The bride chose a gown of white, Schiffli-embroidered tulle over taffeta applied with tiny satin bowknots.

Mr. Harris and his bride will make their home in McCook. A June graduate of Nebraska Wesleyan University, Mrs. Harris is a member of Alpha Gamma Delta sorority, Cardinal Key and Phi Kappa Phi honoraries. The bridegroom, who is a member of Sigma Chi fraternity, received his degree from the University of Nebraska in June.

wards the funeral expenses. They have since raised it to \$250.

How far do you think \$250 will go?

#### ONE WHO KNOWS

CONFIDENTIAL TO "WANTING TO GET AHEAD": You could use one. Spend more time polishing off some work and less time shining up the boss.

If you have a problem, write to Abigail Van Buren in care of this paper. She will be glad to answer your letter. For a personal reply, enclose a self-addressed envelope.

**Come, fill the cup!**

You won't NEED to ask for a coffee refill at the Cornhusker. Our people practice the "Bottomless Cup" policy. It's the only way we've found to satisfy the clamor of our patrons who say they just can't get enough of that fresh, fragrant, special-blend Cornhusker coffee.

It's the best thing that ever happened to those little brown beans from Brazil—the careful blending, roasting, and brewing that produces such a teasing aroma and rich, satisfying flavor.

Food fans know where the coffee is superb, the food follows suit. Give our chefs a chance to prove it, soon. Just follow your nose to the sign of the brimming coffee cup—Ye olde Cornhusker Coffee House!

# Democrats Charge Ike Fosters Blank Check Spending On Foreign Aid

Washington (AP)—A group of Democrats has opened a Senate fight against what they described as blank check spending by the Eisenhower administration under the foreign aid program.

Sen. Wayne Morse (D-Ore.) said he is convinced the administration imposes secrecy labels on breakdowns of foreign aid projects because "it doesn't dare tell the American people what's happening to the taxpayers' money."

Morse and others, including Sen. Mike Mansfield (D-Mont., assistant majority leader), supported an amendment by Sen. Ernest Gruening (D-Alaska) to subject foreign aid spending to justification before congressional appropriations committees.

Gruening proposed that these committees receive detailed budgets listing countries marked for assistance.

Action on this and other amendments, some aimed at cutting hundreds of millions of dollars from the aid bill, which now totals \$3,924,820,000, was put off until Tuesday.

Pending is an amendment by Sen. Allen J. Ellender (D-La.) to slash funds for military assistance from the \$1,600,000,000 President Eisenhower asked to \$1,050,000,000.

In its major action last week, the Senate adopted an Eisenhower-backed two-year, two-billion-dollar program of foreign economic development loans to be financed by congressional appropriations.

This was a substitute for

a 5-year, 5-billion-dollar program to be financed by borrowing from the treasury.

**Backed By Moss**  
Gruening, leading the fight to subject all foreign aid appropriations to the same budgeting and accounting procedures that apply to domestic programs, won support from Sen. Frank E. Moss (D-Utah).

"Our citizens want to know what they are buying for their foreign aid dollar," Moss said in another speech.

"They question why, after 12 years of foreign aid, they are given no estimate as to when it might be tapered down."

Congress, Moss added, must share responsibility for huge foreign expenditures "but has to give a blank check."

"It is time we let in some light on foreign aid," he declared. "We must have the tool for a long overdue appraisal."

Supporting Gruening's amendment, Morse said it would help provide "full public disclosure of the public's business."

"Hundreds and hundreds of millions of dollars have been wasted on the foreign aid program," Morse added.

## Austria's Raab Asking To Quit

Vienna (AP)—Julius Raab, Austria's conservative chancellor since 1953, is asking his party to let him resign, it was announced Monday night.

The 67-year-old Raab will formally ask his party executive Tuesday to let him resign after nearly 9 weeks of haggling with the Socialists to form a new coalition government.

Pacifists Enter Mead Plant

David Wyland holds up a part of the fence for Wilmer J. Young (face obscured by bystanders) as the two cross into the Mead missile site just before their arrest. (Star Staff Photo.)

Pair Arrested For Entering Site

Wilmer J. Young (center) and David Wyland (behind Young) are led away after their arrest for entering the Mead missile site. The two were arrested immediately after crossing the fence. (Star Staff Photo.)

## Two More Pacifists Arrested At Fence

By Charles Beal

Arrested by United States Marshal William Raab Monday were David Wyland, 23, of Toledo, O., and Wilmer J. Young, 71, of Wallingford, Pa.

A brief fracas ensued as the pair crossed the fence when Ralph W. Burnett, 80, of Glendale, Calif., carrying a Bible and small American flag began to bring his foot down hard upon Young's instep.

However, the group plans to continue its civil disobedience at the site and another fence-crossing is scheduled Wednesday.

In stamping upon Young's

instep, Burnett lost his balance and fell backward exclaiming that Young had pushed him.

"I'm sorry — I'm sorry I didn't mean to push you," Young told Burnett.

The incident was witnessed by approximately 75 persons, including a second appearance by an American Legion group, newsmen, federal law enforcement officers, Air Force police and gate guards and the pacifists camped nearby.

Taken To Omaha

Wyland and Young were taken into custody by Raab

Tuesday, July 7, 1959 The Lincoln Star 9

## Russia Charges A Geneva Stall

Geneva (AP)—Soviet Delegate Semyon Tsarapkin again charged that the United States and Britain are deliberately delaying progress in the 3-nation talks on a nuclear test ban.

He told the 107th meeting of the conference that the Western powers still have not given a full reply to the Soviet proposal for a quota system of on-site inspections.

This proposal, put forward in April, would set up a definite number of inspections in each country, allowing spot checks of some—but not all—unidentified earth tremors recorded by fixed observation posts.

U.S. Delegate James J. Wadsworth replied that the two Western powers had repeatedly pressed Tsarapkin for clearer explanations of his proposal, particularly on the application of a Soviet veto on the quota inspections, but had received no satisfactory reply.

### KITCHEN ARITHMETIC

When a recipe calls for "a dash," play it safe! Never use more than 1/8 tsp. of the ingredient called for. Remember: 3 tsp. equal 1 Tbsp.; 16 Tbsp. equal 1 cup; 1 cup equals 1/2 pint; 2 pints equal 1 quart; 4 quarts (liquid) equal 1 gallon. For best results, use standard measuring cups and spoons... all measurements level, please!

### COMPACT NEWS

Good news from the gas industry: A new, compact gas refrigerator! Now you can enjoy maximum food storage space in a minimum of kitchen space. The new slim-line styling of this smart refrigerator makes it ideal for trailers, wonderful for apartments, convenient for homes! Like all gas refrigerators, this new compact model is completely silent, vibration-free and promises peak performance and dollar-saving economy. Want to know more about it? Ask the folks at your local gas company or gas appliance dealer to show you each of the exciting new models.

### PRUNE PIE

Mrs. P. Fiorenza, Council Bluffs, Iowa, sent us this recipe to keep Summer appetites happy: Place 2 Tbsp. cornstarch, 1/4 tsp. salt, 1 cup sugar, 1 cup water in saucepan. Bring to a boil, stirring constantly. Stir about one-half of the hot liquid into 2 beaten egg yolks. Blend all into hot mixture in saucepan. Boil 1 minute more, stirring constantly. Remove from heat. Stir in 1/2 cup lemon juice, 1 Tbsp. grated lemon rind. Cool. Line 9-inch baked shell with 3 1/2 cups cooked and pitted prunes. (Might even stuff the pitted prunes with chopped walnut meats.) Pour filling over prunes. Top with meringue; brown in 400-degree gas oven eight to ten minutes.

### FISH FACTS

Fresh or frozen fish on your menu? For best results, handle the fish as little as possible. You might even cook it in one of those attractive utensils that can double as a serving dish. Test fish with a fork; when it flakes easily, it's done. Over-cooking makes it dry and less tender. Did you know an average serving of fish supplies a third of your body's daily protein requirements? It's usually easy on calories, too.

### PROOF WITH PROFITS

When I say gas is a homemaker's biggest bargain, I mean it! The gas business is a 20 billion dollar industry, working day and night to serve you; yet it costs you only a fraction of a cent to have a cubic foot of this precious fuel piped into your home. Take a tip from professionals who use gas to operate laundry equipment, restaurants that cook exclusively with gas... they know from experience gas means economy for them. Northern Natural Gas Company helps you economize, too. They pipe gas to your local gas company, who pipes it into your home at savings to you!

Connie

## TWO FIRTH TEEN-AGERS FINED AFTER 'STINK-BOMB' BLAST

Two Firth teen-agers involved in the dropping of a dead skunk down a restaurant chimney and then dropping a firecracker in on top of it pleaded guilty to disturbing the peace charges Monday in Lancaster County Court.

Wayne DeBoer, 18, who admitted tossing the skunk down the chimney of a restaurant at Holland June 30, was fined \$25 by Acting County Judge Ralph Slocum. Clifford Pape, 18, who said

he threw a firecracker down the chimney 4 days later, was fined \$10 by Judge Slocum.

Dep. Co. Atty. Paul Douglas told Judge Slocum the explosion "filled the cafe with soot and maggots," and said it caused between \$100 and \$150 damage.

# CHIEFS TAKE PAIR OF 5-2 WINS

## Drysdale, Wynn All-Star Starters

Pittsburgh (AP)—Young Don Drysdale of the Los Angeles Dodgers and 39-year-old Early Wynn of the Chicago White Sox will try to stop right handed power with right handed pitching in today's 26th All-Star baseball game.

The National League is a slight favorite in the game scheduled to start at 11 a.m. (CST) with network (NBC) radio and television coverage. The American League holds a 15-10 edge in the series and has won the last two games.

Vice President Richard Nixon will be among the 35,000 spectators who will jam picturesque, 50-year-old Forbes Field to its capacity. This baseball-crazy city hasn't had an All-Star game since the war years of 1944 when the Nationals managed a 7-1 victory.

The weatherman promises to be kind. Although some scattered thundershowers were scheduled during the night, it was supposed to be sunny and pleasant today with the temperature in the 80s.

Both managers announced their pitchers and batting orders at a news conference this morning.

Casey Stengel of the New York Yankees said he had he switched from Baltimore's Hoyt Wilhelm to Wynn after he learned the Orioles' knuckle ball pitcher had worked 6 innings Sunday.

"I didn't have a chance to talk with him and I had to

make the announcement," he said.

"Old Case" had this to say about Wynn: "He is an experienced pitcher who has won 20 games a number of years in his career. He has been pretty good against us (Yanks) and those big names won't scare him." It will be Wynn's 5th All-Star appearance but first start. He won in relief last year.

Fred Haney of the Milwaukee Braves said it had been

a tossup between the 22-year-old Drysdale (9-6), a fast ball pitcher with a deceptive side arm delivery, and his own Lew Burdette (11-8).

"Drysdale will have had 3 days of rest to go 3 innings," he said. "If I pitched Burdette they would think I was favoring my own players so I decided to go with Drysdale."

Haney said he planned to use Burdette as his second pitcher and would have Pitts-

burgh's Roy Face ready for action at any time. "He might finish up for me and I might need him if one of the others gets in a jam," said Haney.

Face is the darling of the Pirate fans with his 12-0 record. He hasn't lost a game since May 30, 1958 and owns an amazing 0.82 earned run average.

Stengel wouldn't name any second pitcher after Wynn (11-5) but it seemed that Wilhelm (9-4) was due to see ac-

tion if he felt ready for work.

"And my man (Ryne Duren) will be in there some time," said Stengel. "He is going real good and he hasn't worked since Friday." Duren, the Yanks' bespectacled relief ace, has only a 1-2 record but is on a strike-out binge with a long string of scoreless innings.

The only question mark in the starting lineup had been Al Kaline, Detroit's center fielder. Kaline underwent corrective surgery last week for a cheekbone fractured June 18. He hasn't played in a week but relayed word to Stengel that he was having the stitches removed and definitely wanted to play. Stengel was duly impressed. In Detroit, Kaline said he would ask to be relieved after 3 innings.

Mickey Mantle, the center fielder behind Kaline, in the players' vote didn't play Sunday because of leg trouble but he told his manager he wanted to get into the game.

All the starters have to play 3 innings except the pitchers. No pitcher can pitch more than 3 innings unless the game goes into extra innings.

## Lincoln B-Hive Bounces Bees

### ... Chiefs Get Fast 2nd Half Start

By Don Bryant  
Lincoln's snappy Chiefs put the "B" on the Burlington Bees at Sherman Field Monday night, getting off to a roaring start in the second half of the Three-I League split season with a double header sweep by identical 5-2 scores.

With 1050 fans — 750 paid, 300 guest ladies — enjoying themselves to the utmost as both games unfolded in quick fashion, the Chiefs used power, pitching and race-horse antics to topple the Bees.

Lincoln had its own B-hive buzzing as the Chiefs won their 5th straight and got their 5th straight complete pitching job.

Ronnie Bloodworth posted a 6-hitter in the first game to win his first victory since his perfect no-hitter.

Al Brice tossed a 6-hitter in the nightcap.

Don Bacon walked 4 straight times in the second game and scored 3 times, once by stealing home.

The same clubs will tangle again tonight, immediately following the Press-Radio-TV Stars' clash with the Chiefs, directors which starts at 7 p.m.

Bryant Wasdell (3-2) who started the Lincoln win string last Friday night by whipping Topeka with a 6-hitter will pitch for the Chiefs.

Lincoln overpowered the Bees in the first game Monday as Bloodworth gained his 4th win in 13 decisions.

After Chuck Herzberger retired 8 straight Chiefs, Blood-

worth and Bacon ripped off successive singles in the 3rd frame and Mike Hershberger followed with a towering 3-run homer over the left field wall.

Don Gordon made it 4-0 in the 4th by soloing over the right field barrier. Jim Lynn circled for insurance in the 6th via a walk, stolen base, infield out and Pug Williamson's sacrifice fly.

Burlington's pair came in the 6th when Spencer Scott smashed a 2-run homer off Bloodworth as the Bees cut loose with a 4-hit outburst. Ronnie had allowed just 2 hits until the 6th, twice working his way out of tight jams.

Brice started shakily in the second game, but got stronger as the night progressed, retiring the Bees in order during the final 3 innings.

It was Bacon who got the Chiefs off to a dazzling start in the home first. He walked, skipped to second on a passed ball, tagged up and went to 3rd on a fly out and then pulled off a perfect theft of home while Bee Jim Brewer double pumped.

Burlington used a hit-batman, a walk and Ken Lindley's single to tie in the 3rd, but Bacon worked Brewer for the second of his 4 walks in the home half. A balk moved him to second, and after advancing on a fly out, Jim Lynn doubled him home.

Chuck Lehman provided the winning run in the 5th by tripling to centerfield and coming on an error as Bee catcher Ernie Embry tried to pick him off 3rd and threw wild.

Brice drove in the 4th run with a double in the 7th—but didn't get credit for the blast to the centerfield wall. The Bees appealed to the base umpire, claiming Brice failed to touch first. After being ruled safe, Burlington skipper Ray Mueller got a second ruling from Plate Umpire Jay Van Rhee who called Brice out.

A walk, Hershberger's single and an error on the same play gave Lincoln another run in the 7th. Burlington's second tally came on Horace Ingram's single and Jack Evans' double in the 6th.

## ART WALL COPS FLINT PLAYOFF

### ... Nips Finsterwald For \$9,000 Prize

Flint, Mich. (AP)—Art Wall Jr., who let victory slip away in regulation time, beat Dow Finsterwald handily in an 18-hole playoff Monday for the Flint Open golf championship. Wall, never steadier under tremendous playoff pressure, shot a one under par 71. Finsterwald carded a 73.

The 35-year-old Masters champion from Pocono, Man- or, Pa., picked up \$9,000 for his stirring overtime triumph. Finsterwald, the defending PGA titlist, won \$4,600.

The methodical and calculating Wall went two strokes

up on his 29-year-old rival after two holes, increased his advantage to 3 by snaking in 30-foot birdie putt on the 11th green and eased to his 4th major tournament triumph of the year.

Ironically, it was just a year ago that Wall defeated Finsterwald in a sudden-death playoff for the Rubber City Open title. That victory came on the second extra hole and gave Wall the \$2,800 top prize. Finsterwald settled for \$900.

The \$9,000 check for Monday's victory increased Wall's money winnings for the year to \$54,783, including unofficial winnings. The game's leading money winner, Wall now has finished first or second in 11 of 21 tournaments this year.

In addition to his comeback win in the Masters, the man with the unusual baseball grip also won the Pebble Beach and Azalea tournaments.

Wall birdied the 587-yard, par-5 first hole. He put a wedge approach 10 feet from the flag and made his putt, while Finsterwald missed an 8 footer and took a par.

### Beatrice 9 3rd Victim Of Gerry's

Lincoln Star Special  
Beatrice — Gerry's Sports Shop American Legion Juniors of Lincoln made it two in a row and 3 wins in 11 outings here Monday night with a tidy 4-2 decision over Beatrice's Juniors during a well-pitched ball game.

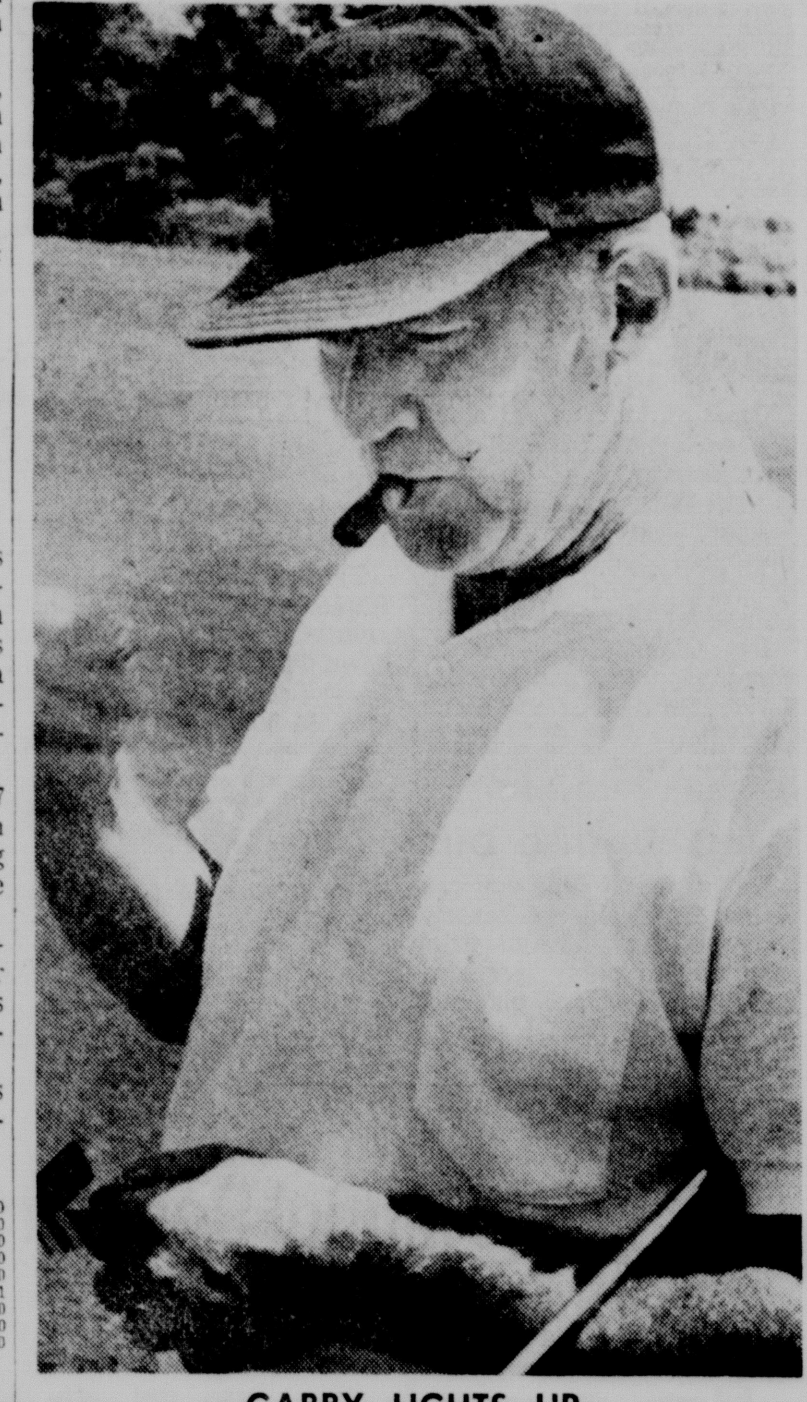

The winners picked up 7 singles off losing pitcher Jim Grupe of Beatrice, including a perfect 3-for-3 performance at the plate by Jim Scanlon.

Mickey Snider, a right-hander, went the distance for Gerry's, scattering 3 singles and yielding only a pair of unearned runs.

Gerry's hosts Wymore's Juniors at Elks Field in Lincoln Saturday night.

GABBY LIGHTS UP

Gabby Hartnett, a member of Baseball's Hall of Fame, lights up his cigar during a round of golf at Hillcrest Country Club Monday. Hartnett, former Chicago Cub catcher who starred in the National League for nearly 20 years, is in Lincoln visiting his son Charles, who moved here recently. Gabby, who has been out of baseball for some 10 years, now operates a bowling establishment in Chicago.

## KEEPING SCORE

With Al Beebe  
Star Sports Staff Writer

### 'Gonna See The Game?'

"Hey, you gonna see the big game?"  
"What big game?"  
"The All-Star game, what else?"

"What All-Star game? You mean the major league All-Star game in Pittsburgh today? Or maybe the Press-Radio All-Stars vs Chiefs Directors at Sherman Field tonight."

"Or are you talking about that second All-Star game at the Coliseum in Los Angeles next month."

"Of course, perhaps you're thinking of football already. There's the Shrine All-Star game featuring graduated Nebraska high school stars in Omaha August 22; also the College Stars vs the pro champion Baltimore Colts in Chicago about the same time.

"Have to be careful when you talk about big games these days."

### First There Was One

There was a time, back when Arch Ward of the Chicago Tribune got his original brainstorm, that when people spoke of "The All-Star Game" you knew exactly what was meant.

There was only one, the major league game in mid-season. That was "the" game, and it carried tremendous weight and prestige.

The game still carries weight and prestige, but they are trying to chop it off now, by adding a second game later in the season. It no longer is "the" game.

All of the other all-star games failed to make much of a dent in the prestige of the majors' summer extravaganza. They weren't in competition.

It seems strange that a business should put up its own competition, which is what baseball is now doing. Trouble is, the game can probably stand the competition, with no one being hurt, and only the players pension fund being enriched. That's the whole idea, of course, to make money.

But then, that's the idea behind all of it.

### What Happened To Groans?

Not long ago, players would occasionally complain about having to play in the All-Star game. They pointed out that it ended the career of Dizzy Dean when he was injured in the classic, and that an accident in the game almost cut off the playing days of Ted Williams, among others.

But since the players have been getting their cut of the proceeds, I haven't heard a squawk. That big money sign again.

Maybe it's all okay. I'm certainly not against making money.

But it's just not "the" game anymore.

### Try Sherman Field

I, for one, think the entertainment value is likely to be pretty good out at Sherman Field tonight.

The Press-Radio game has always provided plenty of excitement, of a sort, and with the directors thrown in as competition, this year's game should be better than ever.

Sherman Field may not hold the 90,000 fans which can be seated in LA's Coliseum, but the Chiefs have a right to make their try for a little money, too.

The All-Star game in Pittsburgh provides a show worth the admission. So do the Chiefs at Sherman Field.

## Tangible Valuation Now Up \$238 Million

By Betty Person

Abstracts from 17 more counties Monday brought the state's unofficial actual value of all tangible property except railroads to \$5,456,972,488 in 83 counties this year, compared with \$5,198,191,385 last

year, an increase of \$238,781,103.

Only 10 counties have not yet submitted their 1959 valuation abstracts to State Tax Commissioner Fred Herrington, but the state's two largest counties, Lancaster and

Douglas, are among those which have not yet reported.

The others are Dawson, Dodge, Gage, Keith, Jefferson, Nance, Platte and Scotts Bluff. Deadline for reporting was July 1.

Of the 17 counties processed through the tax commissioner's office Monday, one was incomplete. Blaine County did not report any intangible property.

### \$68 Million Hike

The 16 counties reporting intangibles, brought the unofficial total in Class A intangibles (cash, book accounts, etc.) for 82 counties to \$301,845,952 this year, compared with \$233,255,300 last year, an increase of \$68,590,652.

The unofficial total for Class B intangibles (stocks and bonds) in the 82 counties is

\$161,053,856 this year, compared with \$75,701,209 last year, an increase of \$85,352,647.

Following is a list of the county valuations reported Monday (figures in parenthesis 1958 valuations):

**Banner:** tangible property \$38,271,003 (\$35,142,384); Class A intangibles \$1,322,389 (\$1,090,054); Class B intangibles \$27,962 (\$18,167).

**Blaine:** tangible property \$12,787,480 (\$11,295,408); Class A and B intangibles not reported.

**Bloom:** tangible property \$56,930,180 (\$54,981,500); Class A intangibles \$1,586,600 (\$1,725,273); Class B intangibles \$33,816 (\$347,645).

**Butte:** tangible property \$17,173,804 (\$13,822,320); Class A intangibles \$10,491,118 (\$7,263,570); Class B intangibles \$2,709,290 (\$6,763,450); Class C intangibles \$2,917,361 (\$2,174,238).

**Cass:** tangible property \$11,511,301 (\$10,115,962); Class A intangibles \$5,016,275 (\$4,009,626); Class B intangibles \$1,880,061 (\$1,679,266).

**Cheyenne:** tangible property \$13,961,229 (\$13,392,533); Class A intangibles \$7,079,290 (\$6,763,450); Class B intangibles \$2,917,361 (\$2,174,238).

**Dakota:** tangible property \$34,853,963 (\$32,738,292); Class A intangibles \$2,916,371 (\$2,155,073); Class B intangibles \$1,043,229 (\$504,677).

**Dawes:** tangible property \$52,183,132 (\$50,891,716,289); Class A intangibles \$2,916,371 (\$2,155,073); Class B intangibles \$1,043,229 (\$504,677).

**Dundy:** tangible property \$23,466,643 (\$22,097,275); Class A intangibles \$1,656,380 (\$1,206,773); Class B intangibles \$230,639 (\$225,189).

**Franklin:** tangible property \$40,758,504 (\$38,546,500); Class A intangibles \$2,916,371 (\$2,155,073); Class B intangibles \$1,043,229 (\$504,677).

**Hooker:** tangible property \$14,126,623 (\$13,206,330); Class A intangibles \$521,039 (\$424,955); Class B intangibles \$227,309 (\$36,453).

**Knox:** tangible property \$82,732,620 (\$80,385,198); Class A intangibles \$4,530,830 (\$3,495,820); Class B intangibles \$1,133,534 (\$656,090).

**Red Willow:** tangible property \$68,674,765 (\$66,157,753); Class A intangibles \$6,157,640 (\$5,631,900); Class B intangibles \$3,869,205 (\$1,112,955).

**Rock:** tangible property \$33,452,853 (\$30,585,001); Class A intangibles \$1,032,610 (\$894,253); Class B intangibles \$308,251 (\$255,189).

**Stanton:** tangible property \$58,027,295 (\$55,249,909); Class A intangibles \$1,985,215 (\$1,113,193); Class B intangibles \$230,519 (\$294,480).

**Webster:** tangible property \$39,034,006 (\$36,782,032); Class A intangibles \$2,102,920 (\$2,072,195); Class B intangibles \$381,057 (\$474,160).

**Wheeler:** tangible property \$16,322,510 (\$14,677,350); Class A intangibles \$233,993 (\$122,840); Class B intangibles \$10,719 (\$15,787).

### Theresa Brewer Fired From Show

New York (UPI) — Singer Theresa Brewer was fired from Perry Como's summer replacement television show Monday after she announced she planned to quit because an assistant producer had hurt her feelings.

Miss Brewer claimed that Henry Howard, who soon will become full producer of the NBC show "Perry Presents," said unkind things about her singing and was rude to her press agent.

Howard said Miss Brewer had been difficult to work with because she thought she should get billing over her co-star, singer Tony Bennett.

## AF A-Weapon Plane Crashes On Takeoff

... Crew Escapes

Shreveport, La. — An Air Force C-124 transport crashed and burned on takeoff Monday while carrying an unarmed nuclear weapon. All 7 crew members escaped with minor injuries.

Officials at Barksdale AFB said there was no explosion and no danger of radiation existed. However, officials said "in the interests of national security and to facilitate removal operations," visitors were asked to stay out of the area until the wreckage had been removed.

The plane crashed shortly after 2 p.m. and Barksdale officials said the fire was brought under control about an hour later.

### Royal Grove Burglary Nets Intruders \$150

An estimated \$150 in coin was reported stolen in a weekend burglary at the Royal Grove Night Club in West Lincoln, the sheriff's office said Monday.

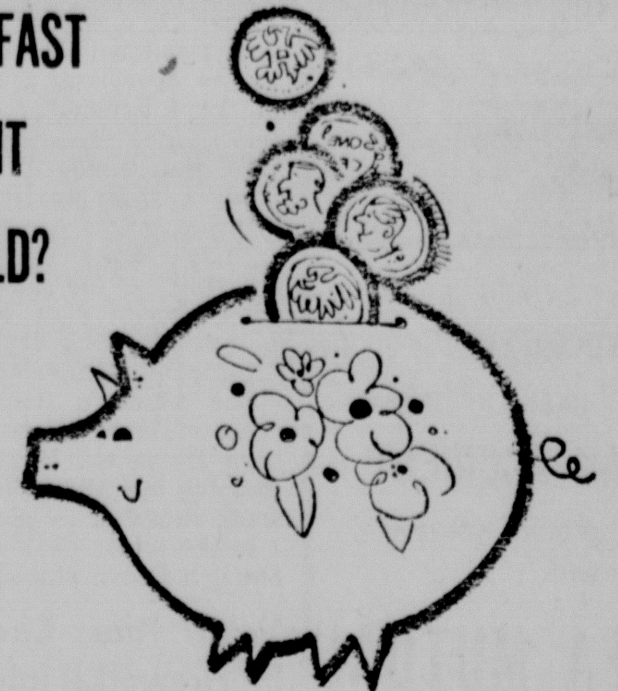

The money was reportedly taken from cigarette machine and juke box coin boxes, deputies said. The club's rear door was pried open to gain entrance.

# Rodia's Spires: Art Or Junk? LA Hearing Tries To Decide

Los Angeles (AP)—Simon Rodia liked to build towers. Because of this, a battle was going on in city hall Monday over whether to raze Rodia's weirdly wondrous spires as hazardous junk, or preserve them as unique examples of primitive art.

At a condemnation hearing H. L. Manley of the city building and safety department said:

"If there were any way to prove they are unsafe, I would have ordered them down long ago. I have no idea what is holding them together."

Kenneth Ross of the municipal art department countered:

"This is a unique work of art, a fantasy merging sculpture and architecture."

The 3 towers, one of them

rising 140 feet, look like nothing else in the world. Built of steel rods plastered and adorned with glass, tile, seashell and corn cob mosaics, the spires took up the spare time of stonemason Rodia for more than 30 years.

With his own money he bought 6,000 sacks of cement and 64 tons of steel to complete a project in which he no longer has any interest.

## Crete Entries Rate High In Sokol Contest

Lincoln Star Special  
Crete, Neb.—Crete Sokol gymnastic classes walked off with 3 national championships in Los Angeles at the National Sokol gymnastic competition.

In the women's division, Vicky Nespor won the championship honors.

Larry Hojer was named champion of the junior boy's division with Jim Kalkwarf, 2nd, and Derrick Taylor, 3rd. All are from Crete.

The women's team, composed of Vicky Nespor, Barbara Dymacek, Mrs. Norma Henning and Mrs. Alice Kalkwarf, captured 1st place.

In the junior girl's division, Marilyn Drevo placed 3rd.

## Youth Faces Charges In Fireworks Injury

A 16-year-old boy is scheduled to face charges in Municipal Court Tuesday in connection with a firecracker incident which resulted in slight injury to a Lincoln girl.

Jean M. Schafer of 1745 No. 65th told police a firecracker was tossed at her and two friends from a car loaded with boys. She complained of injuries to her left thigh, knee and foot, but did not receive medical treatment.

Her two friends were unhurt, she said.

"I wanted to do something big and I did it," Rodia explained in 1955 when he moved to Martinez, Calif., and gave the deed to the property to a neighbor.

Italian-born Rodia, now 81, did not attend the hearing Monday. Defense of the structures was conducted by the present owners, film editor William Cartwright and actor Nicholas King, plus a group of art enthusiasts.

Rodia, who in recent years has used the name Sam Rodilla, once said he built the spires as a memorial to America. Their fate will not be known until the conclusion of the hearing, which may take several days.

## Ceresco Trio Hurt In Crash Still Improving

Three members of a Ceresco farm family injured June 18 in a fatal head-on highway crash near Greenwood on U.S. 6 are "progressing satisfactorily" at Providence Hospital.

Mildred Duncan, 48, who suffered multiple fractures and cuts, was most seriously injured. Her husband, Zolzie, 66, also suffered multiple fractures and cuts. The couple's oldest daughter, Jean, 14, suffered a broken arm and thumb and a concussion. Their youngest daughter, Judy, 7, was released about one week after the crash.

Lincoln businessman Arthur M. Thomson, 33, was killed in the mishap.

## Tulsa Rites For Air Crash Victim William G. Wood

Funeral services for William G. Wood, 45, of Tulsa, Okla., who was killed in a plane crash Friday at Springfield, Mo., were held Monday in Tulsa.

Burial will be at 2 p.m. Tuesday at Topeka, Kan.

Wood and 3 other persons, all owners of the Cherokee Laboratories in Tulsa, were killed when the private plane in which they were enroute to Columbus, Ind., crashed in Springfield. A young boy, who was accompanying them, is hospitalized.

Wood is survived by his wife, Edith of Tulsa; 3 daughters, Phyllis, Nancy and Linda, at home, and a brother-in-law, Frank Q. Abell of 1911 So. 26th in Lincoln.

## Lincoln, Omaha Store Stocks Up From 1958

Monthly department store stocks were up in Lincoln and Omaha during May as compared with the same period a year ago, according to the Federal Reserve Bank of Kansas City.

Lincoln showed an 11% increase, while retail dollar sales in Omaha were up 7%.

## No New Polio Cases; Victims Satisfactory

Monday was another no-new-polio-cases day for Lincoln.

Morris Siegel, president of the Lancaster County Chapter of the National Foundation, said that Lincoln's 3 polio patients, Mrs. Janice Irwin, Mrs. Ruth Carmel and Larry Burton, were in satisfactory condition.

Also listed in satisfactory condition is Robert Gibson, 16-year-old Falls City boy who was admitted to Lincoln General Hospital Friday with a positively-diagnosed case of polio.

Dr. J. Melvin Boykin, manager of the VA Hospital, said that he has received no definite diagnosis of the 3 tentatively-diagnosed cases hospitalized there. He said that it sometimes takes "from 3 to 4 weeks" to get a laboratory report.

Hospitalized at the VA Hospital are A.1.C. Marshall R. Stephenson, Lt. James E. Cone and Walter Stockton. All are "progressing satisfactorily and out of isolation," according to Dr. Boykin.

# Advise Mouth-To-Mouth Artificial Respiration

By George Moyer  
If you see a pretty girl and a life guard mouth to mouth, don't worry—he's just giving her artificial respiration.

The new type of artificial respiration was made the official means of reviving water-logged swimmers Monday by the Red Cross.

Lifeguards at Lincoln pools, however, have been instructed in the technique since 1951, according to Lancaster County Red Cross Safety Director Lloyd Jenkins.

"I plan to go to all the pools and check the boys out on it anyway," Jenkins said.

Advantages Many  
The advantages of mouth to mouth artificial respiration are many, according to Jenkins. There is no pushing or pulling of the victim undergoing artificial respiration so there is no chance of injuring him or aggravating an injury already received.

"Besides, the person administering artificial respiration is breathing carbon dioxide directly into the victim. This stimulates the brain area which controls the breathing process," Jenkins said.

"We will still teach the other method—the arm lift—type of artificial respiration because some people just won't use mouth to mouth," Jenkins said.

"Actually mouth to mouth artificial respiration should definitely be used on children up to 4 years of age," Jenkins said, "because of the possibility that an older and heavier person might injure a small child with the arm lift method."

Pamphlet  
The Lancaster County Red Cross has been making an instructional pamphlet on the

mouth to mouth method available for about the last year.

Mouth to mouth is the simplest method yet devised for artificial respiration. The Red Cross tells would-be users to:

—Clear the mouth of foreign matter. Tilt the head back and pull the jaw forward to a jutting position.

—Open your mouth wide and place it tightly over the victim's. Close the victim's nostrils and blow.

—Turn your head and listen for the sound of the victim's exhale. If there is no exhale at first, a couple of sharp slaps between the shoulder blades may be needed.

## Trial Omitted; Accused Red Agent Is Executed

Bangkok, Thailand (AP)—An accused Communist agent was executed by a machine gunner Monday without a trial.

The execution of Supachai Sritsati, a Thai citizen, was ordered by Premier Marshal Sarit Thanarat who said in a radio statement that the accused can "be regarded as an undesirable person who doesn't deserve to live any longer . . ."

It was the seventh execution without trial ordered by Sarit since he took power last October.

## Sheep Tax Levy Up To Co. Board

A county board does not have to set up a program and levy a tax on sheep for the eradication of predatory animals even though a petition requesting this is filed.

The tax and program is still within the discretion of the

county board, the attorney general ruled Monday.

The opinion said also that it is not necessary that the board first levy the full amount of the more general tax for eradication of predatory animals before levying the sheep tax.

The opinion also said that if signers of the original petition to levy the sheep tax sign another petition remonstrating against the tax, the signing of the second petition removes their names from the original petition.

## Actress Kerr Seeks Divorce On Cruelty

Santa Monica, Calif. (AP)—Actress Deborah Kerr filed for divorce Monday from her husband Anthony Bartley after a separation of more than a year.

She charged him with cruelty.

## Family Planning

New Delhi (AP)—An official announcement says voluntary sterilization of both sexes is increasing as a method of family planning in India. The number of such cases climbed from 5,815 in 1956 to 18,559 in 1958, the announcement said.

**Announce Way To Help  
Drain All 8 Sinus Cavities  
Without Discomfort**  
New decongestant tablet for sinus congestion sufferers  
acts both to drain clogged sinus cavities  
and relieve distressing head pain  
New York, N. Y. (Special)  
Announcement has been made of a new tablet development which has the remarkable ability to help drain clogged sinus cavities and thus relieve congestion and pressure. The headaches, pressure pains, stuffed-up head, nasal drip, clogged breathing—all the unrelenting symptoms the sinus sufferer knows so well—are attacked directly by improving drainage of the sinus areas.  
Most remarkable of all is the fact that this is accomplished with extraordinary speed and without discomfort of any kind. This new tablet does its remarkable work internally, through the blood stream. It deposits into every drop of blood plasma a new medication which is carried to the sinus area, where it

shrinks the swollen doors to the sinus cavities and helps drain away the pain-causing pressure and congestion.

The shrinking substance in this new tablet has been so successful topically in promoting drainage of the sinus cavities that it is now prescribed more widely by doctors than any material for this purpose. This new medication is now available at drug counters without the need for a prescription under the name, Dristan® Decongestant Tablets. Dristan Tablets cost only 98¢ for a bottle of 24 tablets. Buy and use Dristan Tablets with the absolute guarantee that they will drain away pain-causing pressure and congestion of the sinus cavities, relieve the pain and distress, or purchase price will be refunded.

# Bernstein Quits NU Law College Post; Says He's Been 'Immobile Political Punching Bag'

Professor Merton C. Bernstein, focal point of a Unicameral controversy on hiring practices of the University of Nebraska College of Law, has resigned his faculty post.

"My role has been to serve as an immobile political punching bag," Bernstein wrote in a letter of resignation. "Bernstein's resignation was unexpected and of his (Bernstein's) own request," the chancellor stated. "The University did not ask or discuss the question of resignation with Prof. Bernstein."

The letter, addressed to Chancellor Clifford M. Hardin and Law College Dean E. O. Belsheim, was received Friday.

"The resignation was unexpected and of his (Bernstein's) own request," the chancellor stated. "The University did not ask or discuss the question of resignation with Prof. Bernstein."

**Action Thursday**  
Chancellor Hardin said usual procedure will be followed and Bernstein's resignation will be acted upon at the next

Board of Regents meeting, set for Thursday.

Bernstein wrote: "I took several weeks in reaching a decision so that it would not be the result of the turmoil of the moment and my decision was made final by the demonstrations in recent weeks that the attacks upon the College of Law and myself would continue indefinitely."

"Since April, my attention and efforts have been dissipated by the attacks upon me which grew out of my presentation of the Governor's labor-management relations bill. The issues of the legislation have been mentioned

## Belsheim Says Not Resigning As Law Dean

University of Nebraska Law College Dean E. O. Belsheim said Monday he has no intentions of resigning at this time.

The dean also came under criticism during the legislature's controversy over College of Law hiring practices, but at that time, was convalescing from a heart attack.

He suffered the attack at the end of December and was unable to return to his desk until May, he said. Prof. David Dow, although not officially appointed, acted for the dean during Belsheim's illness.

Chancellor Clifford M. Hardin said the question of Dean Belsheim's health as affecting his status at the College of Law is not under discussion at this time.

The chancellor said the question of health in regard to salary increases contained in the new University budget is up to the Board of Regents. The chancellor emphasized that "any questions involving Dean Belsheim are in no way related" to the Unicameral's attack on the Law College or on Prof. Merton Bernstein.

Dean Belsheim declined to comment on the unexpected resignation of Prof. Bernstein. The dean is currently working on College of Law administrative activities.

only seldom and then with exaggeration and inflammatory terms," he wrote. "Personalities have been the focus of public attention."

Bernstein said he had no plans as yet for the coming year but "has come upon possibilities that could be most rewarding professionally."

Bernstein said the "attacks made upon me were in my capacity as a professor. There

is little likelihood that a private citizen or attorney could or would have been subject to any similar treatment."

"As a professor I do not have the immunity, the forum or the power possessed by senators to respond on equal terms. My position was also limited by considerations, not only of propriety, but of concerns for the results of my actions upon the University."

He said "it seems entirely unfruitful to continue this negative and wasteful affair. I am convinced that the people of Nebraska and especially University students are determined to protect and promote a strong university in which diversity of personality and opinion are respected as the indispensable conditions of freedom and democracy."

**No Comment On Report**  
Bernstein said he has received a copy of the Regents' Executive Committee report on a study of charges raised by State Sen. Jack Romans of Ord and "did not wish to comment on the report." He said, however, the study "seems incomplete to me in some respects and I may in the near future submit a statement to the Board if it seems to serve a useful purpose."

er drafting Gov. Brooks' labor-management bill—LB708. The bill was killed 4-2 in committee late in April. Several days later, Bernstein told the committee he was incorrect in earlier stating he had never been a member of Americans for Democratic Action. Then, Sen. Romans introduced a resolution calling for legislative investigation of hiring policies and practices at the Law College.

Chancellor Hardin spoke out in defense of faculty members' right "to express themselves on all subjects according to their own best judgments." The next week, Sen. Romans withdrew his resolution and on May 18, a resolution asking senators to go on record against "unfounded insinuations and charges of disloyalty" concerning law college professors was killed 18-17.
